

CRC® Chain and Wire Rope Lubricant

Product Description

Best for wire ropes and light-duty chains. When it comes to your equipment, you can't be the weak link. CRC® Chain & Wire Rope Lube penetrates deep, then sets into a dry, protective film that keeps wire ropes and lighter-duty chains moving smoothly under pressure. Withstands working temps up to 350°F. Starts thin to penetrate rope strands and bushings, then thickens as it dries to stay in place. It resists corrosion, repels water, and won't sling off under heavy load, because a single seized link can stop an entire system. Advantages vs multi-purpose lubricants: This non-varnishing formula is built for the unique needs of chains and wire rope. It creeps inside rope wires and strands to maintain a lubricated core while resisting fling off and wash off—even at higher working temperatures.

Applications

Low speed conveyor, drive chains, hoists, winches, pulleys, cushion pins, rollers, garage doors, bushings, seals, o-rings, and come-alongs.

Identification	
Item Number / Case Number	1003306 / 1003305
Legacy Number	03050
Unit Package Description	16 Ounce Aerosol
Net Fill	10 wt oz
UPC Code	078254030500
Unit Dimensions	7.75H x 2.63W x 2.63D in
Units Per Case	12

Properties	
Appearance	Clear Light Amber Liquid
Base Type	
Boiling Point (F/C)	95°F / 35°C
Dielectric Strength	
DOT Proper Shipping Name	Aerosols, Flammable, Limited Quantity
Evaporation Rate	Very Fast
Flash Point (F/C)	<0°F / <-18°C
Flammability LEL % / UEL %	1.0 / 8.0
Flammability Class - CPSC	Extremely Flammable
NSF Category Code	H2
Odor	Mild Solvent
Plastic Safe	May Harm Sensitive Plastics
Propellant	Hydrocarbon
Restricted From Sale In:	CA
Solubility	Water - Negligible
Spec Gravity Concentrate	0.6771
Vapor Density	> 1 (air = 1)
VOC % (Consumer Product def)	92.1
VOC Category	Gear, Chain or Wire Lubricant - Aerosol
Working Temp (F/C)	25 to 350°F / Max 176.7°C

Sizes	
10 wt oz	03050
