

BIGFOOT LEVELING SYSTEMS

Bigfoot Leveling Systems are premium hydraulic leveling solutions engineered for RVs, motorhomes, and trailers. Built for durability, reliability, and ease of use, Bigfoot systems deliver fast, stable leveling for customers who demand performance in every environment.

PRODUCT LINE OVERVIEW

Automatic Hydraulic Leveling Systems

Bigfoot automatic leveling systems provide one-touch operation for fast, precise leveling. Designed for Class A, B, and C motorhomes, these systems automatically sense and adjust to uneven terrain while incorporating built-in safety features.

- One-touch automatic leveling
- 12V DC operation
- Four hydraulic cylinders
- Approx. 8,000 lbs lifting capacity per jack
- Large 100 sq. in. footpads
- Manual override capability
- Ignition and All-Up safety alerts
- Optional 14" footpad

Manual Leveling Systems

Manual Bigfoot systems provide precise control for custom applications and users who prefer hands-on adjustment. These systems offer flexibility while maintaining the strength and reliability of hydraulic power.

- Individual jack control
- Hydraulic power with manual input
- Bolt-on or weld-on mounting options
- Ideal for custom chassis applications

Trailer & Tongue Jack Solutions

Bigfoot also offers hydraulic solutions for trailers, including tongue jacks and landing gear systems designed to improve stability, ease of hookup, and long-term durability.

- Hydraulic tongue jack systems - 8K
- Heavy-duty construction - 12k, 17k, 24k
- Designed for travel trailers and specialty applications

Why Bigfoot

- Hydraulic power enables faster setup and more stable leveling than electric systems, helping units reach level quickly and reliably at the campsite.
- Automatic and manual configurations support a wide range of applications across motorized and towable platforms.
- Heavy-duty cylinders and oversized footpads improve stability and safety, especially on soft or uneven ground.
- Lower battery draw helps preserve onboard power for lighting, appliances, and other critical systems.
- Durable, serviceable components are engineered for long-term reliability and supported by a strong OEM and aftermarket network trusted by customers.

Applications & Compatibility

Bigfoot Leveling Systems are designed for a wide range of applications including:

- Class A motorhomes
- Class B and Class C motorhomes
- Diesel pushers
- Travel trailers and specialty trailers
- Buses and custom applications

Support & Parts

Bigfoot offers a full line of replacement parts and accessories, including pumps, cylinders, hoses, footpads, and control components. Comprehensive support resources help keep customers on the road with confidence.
