

3 m & 3.6 m 2-IN-1 LADDER STEPLADDER + LEANING

1. ROTATING WALL PAD

The rotating wall pad allows you to safely work on inside corners, outside corners, walls and studs. With its non-marring surface, you can lean your ladder to get closer to your work without fear of damaging the surfaces.

2. EXTRA-WIDE COMFORT STEPS

At 79mm wide, the rungs on the Sentinel are already comfortable, but the top two steps are a massive 158.75mm for maximum comfort while working.

3. NON-CONDUCTIVE, HI-VIZ GREEN FIBERGLASS

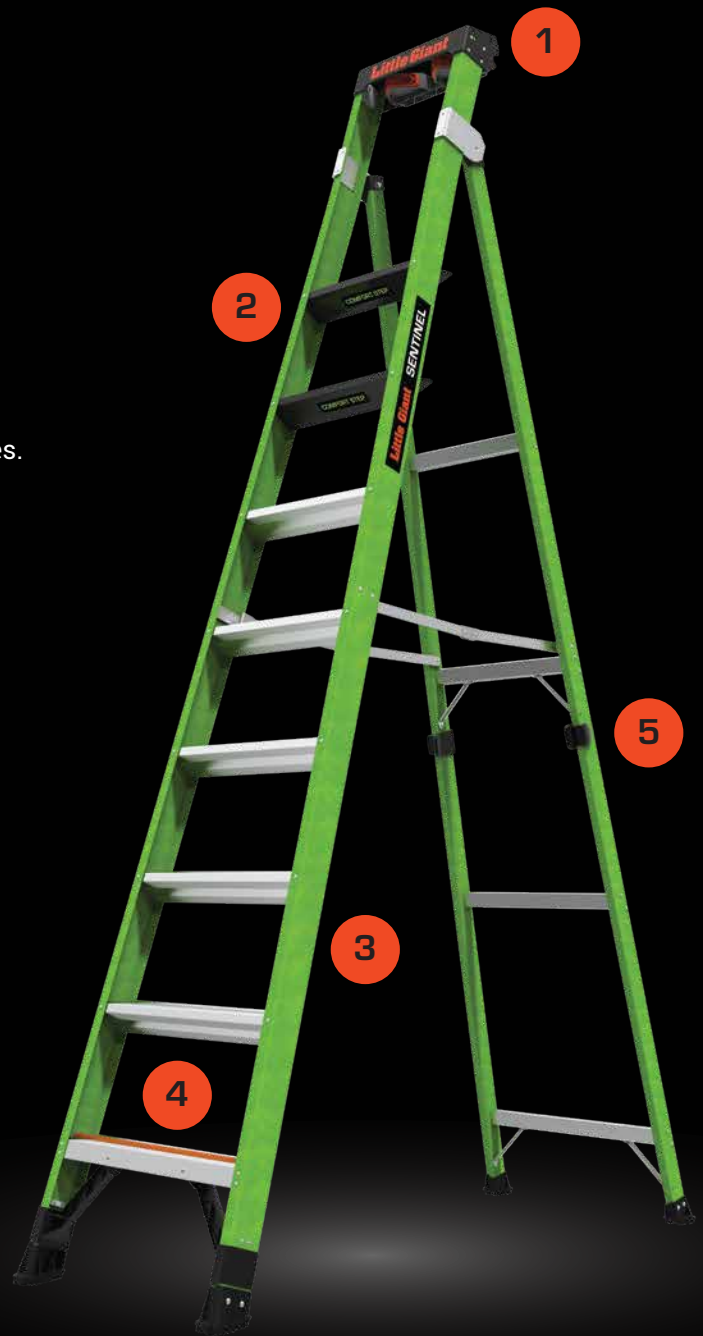

Our Hi-Viz green fiberglass is lightweight and non-conductive. The vibrant green color is proven to increase visibility, preventing injuries from people or objects bumping the ladder while in use.

4. GROUND CUE[®]

Up to 20% of all ladder injuries happen from missing the bottom step while descending the ladder. Ground Cue makes an audible and tactile "click" that alerts you when you've reached the bottom step of the ladder.

5. RAIL LOCKS[®]

Locks your ladder closed for easy transport and safe use in the leaning ladder position.

PRODUCT DESCRIPTION

Sometimes, you need to get closer to the task at hand than a standard A-frame offers, and that's where the Sentinel comes in. The Little Giant® Sentinel combines two ladders in one, A-frame and leaning ladder, making it a versatile tool to help you get stuff done. The Sentinel is available in 10' and 12' models and meets AS1892 Australian Standards.

1-YEAR LIMITED WARRANTY
