

# 15000R

## 5" Remodel Housing Line Voltage

### Product Description

This five-inch Non-IC rated housing is suitable for remodel or new construction in residential and commercial applications and requires 3" spacing from insulation. Integral thermal guards protect against improper lamping and misuse of insulation materials with lamp wattage ratings and apertures based off trim selection. The 7 1/2" housing height allows it to be used in 2" x 8" joist construction

### Details

Suitable for new construction in residential and commercial applications. NON-IC. Insulation must be kept a minimum of 3" from housing.

### Housing

Integral thermal protector guards against improper lamping and misuse of insulation materials.

7 1/2" height allows use in 2" x 8" joist construction.

### Junction Box

Listed for through branch circuit wiring and includes several 3/4" knockouts. Four pry-outs with integral strain relief simplify Romex installation.

Supplied with three IDEAL® push-in wire connectors.
