ASSEMBLY COMPLETE

INSTRUCTIONS FOR ADJUSTING LEVELERS:

Position the bed in your space and locate the leveler under each support leg.

Turn the leveler counter-clockwise to extend the leveler and clockwise to retract it.

Adjust each leveler until each support leg is applying equal, upward pressure on the support slat.

MAINTENANCE INSTRUCTIONS:

- Periodically check all fittings and tighten if necessary, as they can loosen over time.
- Always remove box spring and mattress before moving the bed.
- Lift the bed when moving it. Dragging the bed can damage the center support.
- Readjust levelers after moving the bed.
