

COLDWORK™ COVERT BASE LAYER

COLD WEATHER HAND PROTECTION

Light-weight and versatile, the ColdWork™ Base Layer is loaded with features to combat the cold and provide extreme dexterity. A thin microfleece lined stretch SoftShell wraps the hand providing warmth and flexibility. Sleek enough to be used as a base layer in combination with another glove, it also has a water repellent treatment to stand on its own against the elements. A rollover cuff design creates a secure fit while keeping out the elements. The palm combines touchscreen capable thumb and index finger patches with a Padlock™ silicone grip pattern to provide improved grip strength and ultimate functionality in cold environments.

FEATURES

- 1 Water resistant stretch SoftShell construction prevents the cold air from sneaking in.
- 2 Micro fleece lining adds warmth and provides exceptional comfort.
- 3 Sleek, low profile design allows the glove to be used as a liner or on its own.
- 4 Touchscreen capable thumb and index finger patches.
- 5 Padlock™ no-slip silicone grip palm pattern.
- 6 Rollover cuff design creates a secure fit while keeping out the elements.
- 7 Nylon carrier loop for quick storage.
