

SPEEDKNIT™ CHEMICAL S27DQ58

COATED CHEMICAL RESISTANT GLOVES

Shield against harmful chemicals with the SpeedKnit™ S27DQ58 Chemical Resistant glove. The double-dipped proprietary nitrile bi-polymer coating combines a traditional palm coating on top of a 3/4 coating that extends from the fingers to the back of the hand provides a waterproof, chemical-resistant¹ barrier. Wearers will find the 15-gauge HPPE blended shell enables ample dexterity and a snug fit with superior protection from high cut hazards meeting an ANSI cut level A7 and EN 388 level F cut resistance rating.

FEATURES

- 1 15-gauge HPPE blended shell meets an ANSI A7 cut resistance standard.
- 2 3/4 proprietary nitrile bi-polymer dip base coats the shell from the fingers to the back of the hand.
- 3 Nitrile bi-polymer palm coating provides abrasion resistance meeting ANSI level 6.
- 4 Layered double-dip coatings are waterproof and chemical-resistant¹, specifically formulated to work with oils.
