

# HIT™ INFLATABLE PFD FOR LAW ENFORCEMENT (MD3153LE)

Made for the most severe marine environments, the HIT Inflatable PFD meets the challenges of the most demanding users. The Hydrostatic Inflator Technology (HIT) offers reliable inflation in a low-maintenance design that will only automatically inflate when submerged in four or more inches of water and not inadvertently due to rain, spray or humidity. This technology is exclusive to Mustang Survival in North America and maintenance-free for five years from the date of manufacture or until inflated. It also features the patented SecureZip™ closure system to ensure it stays closed during even the most rigorous activity and still opens effortlessly upon inflation. The low-profile design accommodates Personal Protective Equipment (PPE), and a back flap on this PFD can be silk-screened with department identification.

SecureZIP™ closure withstands rigorous activity and is easy to repack

Neoprene Comfort Collar™

Approval: TC Marine - TP 14475  
- Inflatable PFDs - Type II

Strobe light holder, safety whistle and SOLAS reflective tape on bladder

Provides 38 lb of buoyancy when inflated (twice the flotation)

Backup oral inflation tube

Lightweight and comfortable design

Durable 420 Denier nylon and heavy duty polyurethane coated nylon

Low maintenance Hydrostatic Inflator Technology only inflates when submerged in four or more inches of water, minimizing accidental inflation

Side adjustments for dual sizing
