FACING FRONT TOWARD ARROW

Stand chair up on an even surface and check that it is balanced. If there is a slight wobble, apply downward pressure in the corner where a leg is uneven. Keeping pressure in that corner, tighten all bolts. If balanced, apply downward pressure evenly in the center and tighten all bolts. Do not over-tighten beyond hole depth.

Helpful Tip:

Instead of applying downward pressure while reaching under to tighten bolts, have someone sit on the chair while you tighten the bolts.

**ENSURE THAT ALL SCREWS ARE FULLY
DRIVE IN AND TIGHTEN BEFORE READY TO USE.**

CLEANING & CARE

Treat surface with care. Surface is resistant to scratches but is not scratch resistant. Clean surfaces with a dry or damp soft cloth. Do not use abrasive cleaners. Hardware may loosen over time. Periodically check that all connections are tight.
