Adcraft High Density Thermoplastic 15" x 20" Cutting Board, Non-Absorbent, BPA-Free, in White

HDCB-1520/WH

Designed to prevent cross-contamination, the Adcraft High Density Thermoplastic Cutting Board features a non-porous, BPA-free construction that resists cracking and absorbing odors. Its high-density PE material provides a durable, reversible prep surface for busy kitchens and foodservice operations, while the lightweight, easy-to-clean design ensures convenient handling. This board is non-toxic, non-absorbent, and suitable for both indoor and outdoor use, offering lasting performance for culinary tasks.

Features and Construction

- Constructed from high-density, non-porous PE thermoplastic for lasting durability
- Features a non-absorbent, BPA-free surface to resist odors and liquids
- Designed for superior temperature resistance to minimize warping and cracking during frequent use
- Measures 15 inches by 20 inches and 1/2 inch thick for ample workspace
- Lightweight and easy to clean for enhanced usability in foodservice
- Reversible design allows double-sided use for extended service life and operational efficiency
- Non-toxic and BPA-free materials support food safety compliance
- Crack-resistant, warp-resistant build ensures top performance in high-volume food prep
- Engineered for long-lasting daily use in commercial environments
- Prop 65 compliant and BPA-Free for regulated foodservice applications
