Care and use

Before using the ovenware for the first time, it is essential to hand-wash it thoroughly. This ovenware is suitable for domestic oven use only, with a maximum temperature of 220 °C or Gas Mark 7. To prevent sticking, lightly coat the inner surface with grease. For optimal longevity, it is advisable to utilise silicone, wooden, or nylon utensils, avoiding the use of metal ones. Additionally, do not overheat the ovenware and never leave it unattended while in use. When it comes to cleaning and storage, always allow the ovenware to cool before cleaning, as it is not dishwasher safe. Use a mild detergent and a non-abrasive sponge for hand-washing, and ensure to rinse and dry it thoroughly. It is important not to store the ovenware while it is wet. For safety, always use heat-resistant oven gloves when handling the ovenware, and avoid exposing hot items to cold liquids. If there is any indication of damage to the ovenware, dispose of it carefully.
