Cable Testers and Network Testers

NetXpert XG2

NetXpert XG2 PLUS

LinkXpert M3

LinkXpert TP

**XpertCare Support Program**

Any downtime for your cable certifier, cable tester, or network tester due to malfunctions or an inconveniently timed calibration expiration can delay project schedules and increase maintenance costs. To mitigate these circumstances, we offer the XpertCare Support Program. It contains a complete package for annual calibration, maintenance, loaner program, and the replacement of parts beyond the standard warranty.

The XpertCare Support Program for WireXpert
