## New Product Spotlight!

## Fluid Solidifiers

Reorder Nos. 1284-1285

Dynarex Fluid Solidifiers are ideal for use by EMTs, first-responders, and other medical workers who may come into contact with liquid medical waste. The fast-acting Solidifier is designed to safely and effectively transform hazardous fluids into a semi-solid (gel) mass to reduce the risk of splashes and aerosolization and to help meet the OSHA Compliance 1910.1030 Bloodborne Pathogens Standard. The Fluid Solidifier is perfectly sized for kit packs, ambulances, and hospitals and for stocking clean-up stations in schools, restaurants, work, and at home.

- Designed to turn hazardous bodily fluids into gel for optimal safety
- Fast-acting formula for quick cleanup and disposal
- Reduces the risk of cross-contamination
- Chlorine-free formula
- 1284: 28 g pouch absorbs up to 900 cc of liquid
- 1285: 10 g pouch absorbs up to 300 cc of liquid
