

CRC 3-36® Knock'er Loose Plus Penetrating Solvent

Product Description

Best for freeing fasteners in fuel/brake lines or no-flame zones. You know the moment: the bolt won't budge, the line's down, and every minute costs more than you want to admit. You don't need promises—you need movement. CRC®Knock'er Loose® Plus uses freeze-shock technology to rapidly lower the temperature of the metal, causing it to contract. This cracks the rust and creates space for the industrial strength solvent to rapidly break the bond. For use in no-flame zones, it's the go-to when heat isn't an option.

Applications

Nuts and bolts, pins, screws, bushings, clips, hinges, snaps, lugs, caps, locks, washers and sliding mechanisms.
