

EarthChoice® PLA Hinged Lid Containers

These PLA containers are crystal-clear to showcase your menu items, and renewable and commercially compostable to meet with your sustainability goals.

Plant-based Plastic

Made from polylactic acid (PLA), a plant-based plastic derived from annually renewable resources like corn.

Secure Freshness

Patented SmartLock® closure delivers a tight, reliable seal to help maintain freshness. Ideal for cold foods like sandwiches and salads, with heat tolerance up to 105°F.

BPI Certified Compostable

Commercially compostable only. Facilities may not exist in your area. Not suitable for home composting.

These guidelines are supplied to assist you in determining the proper use of Novolex products. They are based upon testing and published guidelines and are reliable in most applications. However, because every food supplier's recipes, ingredients, processes and supply chain is unique, these guidelines are not a substitute for product testing. Confirmation of product acceptability under your specific conditions of use must be done by you.
