WARNING

BEFORE ASSEMBLY

Failure to follow these warnings and the assembly instructions could result in serious injury or death.

Read all instructions before assembling crib. Keep instructions for future use.

Check this product for damaged hardware, loose joints, loose bolts or other fasteners, missing parts, or sharp edges before and after assembly and frequently during use. Securely tighten loose bolts and other fasteners.

DO NOT use crib if any parts are missing, damaged, or broken.

For replacement parts or instruction manuals, contact Million Dollar Baby Co.

SUFFOCATION HAZARD

Never use plastic shipping bags or other plastic film as mattress covers because they can cause suffocation.

Infants can suffocate in gaps between crib sides and a mattress that is too small.

Infants can suffocate on soft bedding.

Never add a pillow or comforter. Never place additional padding under an infant.

To reduce the risk of SIDS, pediatricians recommend healthy infants be placed on their backs to sleep, unless otherwise advised by your physician.

STRANGULATION HAZARD

Strings can cause strangulation! Do not place items with a string around a child's neck, such as hood strings or pacifier cords. Do not suspend strings over a crib or attach strings to toys.

To help prevent strangulation tighten all fasteners. A child can trap parts of the body or clothing on loose fasteners.

DO NOT place crib near window where cords from blinds or drapes may strangle a child.

FALL HAZARD

When child is able to pull to a standing position, set mattress to lowest position. Remove bumper pads, large toys and other objects that could serve as steps for climbing out.

Stop using crib when child begins to climb out or reaches the height of 35 in. (89 cm).

AFTER ASSEMBLY

DO NOT substitute parts.

If refinishing, use a non-toxic finish specified for children's products.

Follow warnings on all products in a crib.

CAUTION

ANY MATTRESS USED IN THIS CRIB MUST BE AT LEAST 27 1/4 INCHES (69CM) BY 51 5/8 INCHES (131CM) WITH A THICKNESS NOT EXCEEDING 6 INCHES (15CM).

ADVERTENCIA

ANTES DEL ENSAMBLAJE

Si no se siguen estas advertencias y las instrucciones de ensamblaje podría ocasionar lesiones serias o fatales.

Lea todas las instrucciones antes de ensamblar la cuna. Conserve las instrucciones para uso futuro.

Revise este producto en busca de herraje dañado, juntas sueltas, pernos o fijaciones sueltos, piezas faltantes o bordes afilados antes y después del ensamblaje y frecuentemente durante el uso. Apriete firmemente los pernos y otras fijaciones que puedan estar sueltos.

NO use la cuna si hay alguna pieza faltante, dañada o rota.

Para pedir piezas de repuesto o manuales de instrucciones, póngase en contacto con Million Dollar Baby Co.

PELIGRO DE ASFIXIA

Nunca use bolsas plásticas de envío ni otros tipos de película plástica como cubiertas de colchones porque pueden causar asfixia.

Los bebés pueden asfixiarse en los huecos entre los costados de la cuna y un colchón que sea muy pequeño. Los bebés pueden asfixiarse sobre la ropa de cama blanda.

Nunca agregue una almohada ni edredón.

Nunca ponga acolchado adicional debajo de un bebé.

Para reducir el riesgo del síndrome de muerte infantil súbita (SMIS), los pediatras recomiendan poner a los bebés sanos boca arriba para dormir, a menos que su médico le indique otras instrucciones.

PELIGRO DE ESTRANGULACIÓN

¡Las cuerdas pueden causar estrangulación!

No ponga objetos que tengan cuerdas alrededor del cuello de un niño, como cordones de capuchas ni de chupetes. No suspenda cuerdas encima de una cuna ni ponga cordeles en los juguetes.

Para ayudar a prevenir la estrangulación apriete bien todas las fijaciones. Pueden quedar atrapadas partes del cuerpo del niño o su ropa en las fijaciones sueltas.

NO ponga la cuna cerca de una ventana donde haya cordeles de persianas o cortinas que puedan estrangular a un niño.

PELIGRO DE CAÍDA

Cuando el niño pueda pararse solo, ponga el colchón en la posición más baja. Retire los protectores de la cuna, los juguetes grandes y otros objetos que pudieran servir como peldaños para salirse.

Deje de usar la cuna cuando el niño comience a subir para salirse o llegue a medir 89 cm (35 pulgadas) de estatura.

DESPUÉS DEL ENSAMBLAJE

NO sustituya piezas.

Si va a retocar el acabado, use un acabado no tóxico especificado para productos infantiles.

Siga las advertencias que tengan todos los productos en una cuna.

PRECAUCIÓN

AVERTISSEMENT

AVANT L'ASSEMBLAGE

La non-observation de ces avertissements et de ces instructions d'assemblage peut entraîner des blessures graves, voire mortelles.

Veuillez lire toutes les instructions avant d'assembler le lit pour bébé. Conservez ces instructions pour une consultation ultérieure. Avant l'assemblage de même qu'avant et après l'utilisation, assurez-vous de l'absence de quincailerie endommagée, de joints desserrés, de boulons ou d'autres fixations desserrés, de pièces manquantes, de bords coupants. Serrez solidement les boulons et autres attaches desserrés.

N'utilisez PAS le lit pour bébé si une ou plusieurs pièces sont manquantes, endommagées ou brisées.

Communiquez avec Million Dollar Baby Co. pour obtenir des pièces de rechange ou des manuels d'instructions.

RISQUE D'ÉTOUFFEMENT

Pour éliminer les risques d'étouffement, n'utilisez jamais de sacs de plastique ou d'autres pellicules de plastique comme housses de matelas. Les bébés pourraient s'étouffer dans les espaces entre les côtés d'un lit de bébé et un matelas qui serait trop petit.

Les bébés peuvent s'étouffer sur des objets de literie mous.

N'ajoutez jamais d'oreiller ni de couettes. Ne placez jamais de capitonnage supplémentaire sous un nourrisson.

Pour réduire les risques de mort subite du nourrisson, les pédiatres recommandent de coucher les bébés en santé sur le dos, à moins d'avis contraire d'un pédiatre.

RISQUE D'ÉTOUFFEMENT

Les cordes présentent un risque d'étouffement. Ne placez pas des articles dotés d'une corde autour du cou d'un enfant, comme des capuchons avec des cordons ou des sucres avec des cordons. Ne suspendez pas de cordes au-dessus d'un lit de bébé et n'attachez pas de cordes aux jouets.

Pour prévenir l'étouffement, serrez toutes les attaches. Un enfant peut coincer des parties de son corps ou de ses vêtements dans des attaches desserrées.

Pour réduire les risques d'étouffement, NE placez PAS un lit de bébé près d'une fenêtre où des cordons pendent des stores ou des rideaux.

RISQUE DE CHUTE

Lorsqu'un enfant est en mesure de se mettre en position debout, placez le matelas à la position la plus basse.

Retirez les tours de lits, les gros jouets et tout autre objet sur lequel l'enfant pourrait monter pour sortir du lit.

Cessez d'utiliser le lit pour bébé lorsque l'enfant commence à sortir du lit ou atteint une taille de 89 cm (35 po).

APRÈS L'ASSEMBLAGE

NE substituez PAS des pièces.

En cas de remise en état, utilisez un fini non toxique convenant aux produits pour enfants.

Respectez les avertissements de tous les produits dans un lit pour bébé.
