This page lists all the contents included in the box. Please take the time to identify the hardware as well as the individual components to this product. As you unpack and prepare for assembly, place the contents on a carpeted or padded area to protect them from damage.

1

Attach the Caster (B) to the Cabinet (A) using Screw (C) with a Phillihps Head Screwdriver (not provided) as shown.

2**(OPTIONAL)**

This Anti-Tipping Kit restraint must be attached to a wall.

- i. Attach one Bracket (E) to the cabinet back using Screw (F) through the small hole.
- ii. Install the other Bracket (E) on the wall using the Screw (G) through the small hole 2" below the Bracket on the cabinet.
- iii. Move the cabinet to the position and both Bracket (E) are vertically in line.
- iv. Thread the Strap (D) through the large hole of Bracket (E) and pull it tight.

Cleaning & Care

Treat surface with care. Surface is resistant to scratches but is not scratch resistant. Clean surfaces with a dry or damp soft cloth. Do not use abrasive cleaners. Hardware may loosen over time. Periodically check that all connections are tight.
