

Laparotomy Sponges

STERILE

3145 12" × 12"

3146 18" × 18"

Dynarex Laparotomy Sponges are high-quality 100% cotton sponges, ideal for use in surgical procedures where high absorbency is required. These pre-washed, sterile sponges are x-ray detectable and feature stitched edges for improved reliability.

- Made from pre-washed, 100% cotton gauze (non-fluorescent)
- Features radiolucent element to allow for easy recognition under x-ray
- Blue sewn fabric loop helps to identify individual sponges and ensure accurate count
- Sponges feature stitched edges for improved durability
- Sterile and disposable for optimal hygiene
- Banded in packs of 5 for easy dispensing
- 5 per pouch, 40 pouches per case
