VISUAL EXPERIENCE EXTREME

**VXXT6R | VXXT6R SST | VXXT6 | VXXT8R SPEAKERS
VXXT8RW | VXXT10RW SUBWOOFERS**

Transform any outdoor space with Sonance Visual Experience Extreme Series - the next evolution in architectural audio that delivers exceptional performance with superior environmental durability. Built to thrive in the most demanding conditions, the advanced architectural speaker series features robust IP66 weather protection and a 90° Celsius temperature resistance. The comprehensive lineup, including two powerful in-ceiling subwoofers, elevates the experience while seamlessly blending into any architectural setting. Whether poolside, beachfront, sauna, or in other challenging environments, VX Extreme Series ensures a superior listening experience without sacrificing aesthetics or reliability.

KEY FEATURES

FEATURES AND BENEFITS

VX Transducer Tech: Higher performance and fidelity.

VX Waveguides: Consistent tonality and improved coverage.

VX/VXQ XPC Grilles: Micro Trim and Trimless Extreme Post Capture Grilles in Sonance brilliant white (same grilles as VXQ).

Extreme Rated: Weatherized against the harshest outdoor elements; high temperatures, high UV, IP Rated.

IP66: Water and dust resistant.

Increased Temp Resistance: Now 90°C (194°F) vs Legacy VP Extreme which was 80°C (176°F); VX XT can be used in saunas.

One-Stage Install: Traditional installation process like Visual Performance (VP).
