

TONGUE DEPRESSORS

Dynarex Tongue Depressors are durable, smoothly polished wooden sticks designed to depress the tongue during medical examinations for an unobstructed view of the mouth and throat.

- Sturdy tongue depressors crafted from durable birch wood
- Feature smooth, polished edges to minimize risk of splintering for enhanced comfort and safety
- Precision-cut, uniform in size and color
- Available in junior and senior sizes
- Packaged in sterile peel-down pouches or bulk, non-sterile boxes
- Ideal for first aid kits, applying lotion and cosmetics, mixing solutions, crafts, and more
