# CT Series 16 SEER Air Handler

Continental's 16 SEER Air Handler is a great addition to your heating and cooling system. With multiple installation options, quiet operation and a neutral color, you won't notice your Continental 16 SEER Air Handler is there, as it contributes to maintaining a balanced, consistent temperature in your home.

## Competitive Advantages

- Zero clearance in all positions, providing installation ease in closets and alcoves with no additional kits required
- Features an ECM variable speed blower motor which eliminates sudden gusts of air and maintains an even temperature

## Features and Benefits

- Anti-rust cabinet spray-painted galvanized steel withstanding 500 hours of salt spray testing
- Fully insulated design minimizes indoor noise level
- Front panel is removable allowing the blower assembly and coil assembly to slide-out for easy maintenance and serviceability
- Filter rack located at bottom for convenient maintenance and installation
- Flexfit installation options: upflow, vertical, horizontal left and right

## Variable Speed ECM TECHNOLOGY

ECM=Electronically Commutated Motor

The ECM Eon variable speed blower motor gives you increased comfort by accelerating and decelerating slowly, eliminating sudden gusts of air.

Continental's EnerSave ECM motor reduces electrical consumption by up to 80%\*

## Flex Fit

Flex Fit means Napoleon's air handler offers installation options for closets and alcoves with not additional kits required, and zero clearance in all positions.
