CLEANING AND MAINTENANCE

1. To preserve the polished surface, after using your tub, clean with soft cloth and warm soapy water to wash away any body oils or soap residue that forms a ring tide mark.

2. Do not use powders, pastes, crème cleaners, thinners, window cleaning sprays or dry cleaning liquid, etc to clean the tub.

3. For overflow plate and pop up drain, we do NOT recommend you use any household cleaners to clean the product. Aggressive chemicals can damage the finish and function of this product. The product should only be cleaned with soapy water and rinsed with clean water and dried with a soft cloth.

4. When coloured essentials oils are used, first test that the colour won't stain your tub. Always add oils into a tub full of water. Never pour them into an empty tub.
