

WIDE BASE TRAPEZE BAR with Stand

ITEM 10711

The Dynarex Wide Base Trapeze Bar with Stand is an overhead pull-up device designed to help patients shift positions in bed. Its durable steel construction features a two-piece design, tool-free assembly, an adjustable chain, and adjustable bar height. Ideal for hospitals, rehabilitation facilities, and assisted living.

- Designed to help individuals shift positions while in bed
- Adjustable bar height and chain length accommodate a range of user needs
- Durable steel construction provides long-lasting reliability
- Tool-free assembly allows for fast and easy setup
- Wide base (37") fits outside the wheelbase of many low beds and long-term care beds
- Designed for assistance only; not intended to support full body weight
- Weight capacity of bar 250 lb. Can assist individuals ≤ 350 lb.
- HCPC E0940
