

SONOS

Powerful Sonos sound
you can move around.

Say hello to **Move 2**

Powerful stereo sound

The new acoustic architecture replaces Move's single tweeter with two, unlocking a higher-fidelity stereo soundstage. With crisp vocals and detailed instruments articulated in left and right channels, you'll feel the emotional charge of a live performance.

Full-range oomph

Placed in a sealed enclosure and powered by advanced digital signal processing, the precision-tuned woofer produces deep, dynamic, and clean bass.

Tuned to its environment

With automatic Trueplay™ tuning, Move 2 continually optimizes the sound for its surroundings. So, no matter where you are or what you play, you get the best listening experience.

One speaker, infinite listening possibilities

Whether you want to put on a podcast in the kitchen, listen to radio by the pool, or play music at the park or beach, Move 2 does it all. Plus, enjoy easy multiroom audio with more Sonos speakers around your home.

Tech Specs

Double the battery life

Listen twice as long as with the previous generation. All the acoustic updates work in concert for increased efficiency, giving you up to 24 hours of playback on a single charge.

Ultra durable and water resistant

Shock absorbent materials protect against accidental drops, and the IP56 rating ensures spills, splashes, rain, dirt, and dust don't dampen your listening experience.

Colors

Black, White

Dimensions

Height: 9.53 in (242 mm)

Width: 6.29 in (160 mm)

Depth: 4.96 in (126 mm)
