STAMPS

IDENTIFY MARK SERIALIZE

GRADES, SIZES, SORTS

The right grade and size for the right application

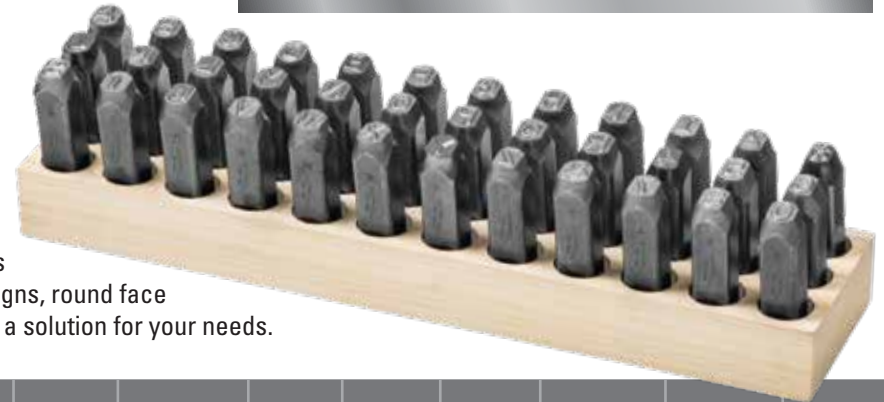

Our steel stamps can be ordered individually (called sorts)

You can order a single (sort) stamp from any of the 3 grade categories listed below. The shank sizes range from 1/4" all the way up to 1-1/4", with a length from 2-3/8" up to 4-1/2". Character sizes start at 1/32" and go up to a full 1".

For extremely rugged applications, choose our 440C stainless steel stamps. Perfect for use when cross contamination is an issue.

Stamp sets offer the best value by providing you with full selections of letters, numbers and punctuation marks. Sets come in durable storage steel cases or wooden holding blocks.

Chose from specialty designs such as reversed characters, dot pattern designs, round face and lower case characters. We have a solution for your needs.

Permanently mark steel, aluminum, brass or other materials with C.H. Hanson's® quality steel stamps.

Every stamp we produce is carefully crafted from USA steel and heat-treated for optimum performance and life.

And for the ultimate marking solution, turn to our Rhino™ steel stamps - these rugged, durable products are the best you can buy.

No matter what you want to identify or mark, C.H. Hanson can help with a stamp to fit your needs. Contact us today for a solution.
