

## HEMOCARE TRAPEZE BAR

with Stand

### ITEM 10710

The Dynarex Hemocare Trapeze Bar and Stand Combo is an overhead device designed to assist patients in shifting positions while in bed. Featuring durable steel construction, tool-free assembly, and adjustable bar height and chain length, it is ideal for hemocare, hospital, and rehabilitation settings.

- Overhead trapeze with triangular handle helps individuals safely reposition themselves in bed
- Durable steel construction provides long-lasting strength and stability
- Freestanding design offers flexible placement in care environments
- Adjustable bar height and chain length accommodate a range of users
- Can assist individuals up to 250 lb.
- Designed for repositioning assistance only; not intended to support full body weight
- Ideal for hemocare settings, hospitals, and rehabilitation facilities
- HCPC E0940
