FEATURES AND BENEFITS

Scan-to-List - Take the guesswork out of groceries with a built-in bar code scanner that automatically adds scanned items to a shared, digital shopping list. Scan any item with a bar code with a database of over 4 million UPC codes.

Shared, Digital Shopping List - Anyone in the family can easily reference exact details at the store via SmarthQ™ or sync to Instacart for quick delivery.

Fridge Focus™ Camera - Captures an image of the last time your produce drawers were opened, so you can view your inventory from anywhere with the SmarthQ™ app, helping you plan grocery lists while you're away from the fridge and avoid buying duplicates at the store.

Recipe App Integration - Remove the mental load of meal planning with a fridge that acts as your personal recipe assistant, allowing you to find new recipe inspiration, save your favorites, and easily add recipe items to your shared, digital shopping list.

Hands-free AutoFill - Hands-free AutoFill uses sensors in the refrigerator dispenser to release the exact amount of filtered water you want, so you can walk away while your bottle fills up.

Hands-free Precise Fill - Dispense an exact amount of ounces, cups, quarts, or milliliters of filtered water into any container with just a touch, allowing you to ditch the measuring cups and do fewer dishes.

Voice Integration - Just say "Hey HQ!" to activate your SmarthQ™ voice assistant. Add items to your shopping list, dispense water, set a timer, or ask about your refrigerator features.

GE Profile Connect + - Ensure your fridge always has the latest features with downloadable software upgrades.

Brilliant Touch Display - A bright, interactive touch screen is easy to use and includes custom screen backgrounds, weather updates, water center, kitchen timers, and more.

LED Light Wall - The showcase LED light wall sheds bright, uniform light throughout the interior of this LED refrigerator, illuminating every shelf and making even the smallest items easy to find.
