Adapts For A Snug Fit
On Various Mattress Sizes

Envelope-Style
Construction

Built **for Laundries.**

You need tough textiles that process quickly and efficiently. Your customers want products that look & feel great, use after use. Get the best of both worlds with the Standard Express Laundry Collection.

MAXIMUM EFFICIENCY

Every aspect of this collection is designed with efficient processing and cost savings in mind.

Our high-quality polyester fibers are meticulously woven to create heavier weight, yet faster-drying products. This material is also exceptionally durable and long-lasting, with less shrinkage and lint loss than conventional cotton-poly blends.

COMFORT AND PERFORMANCE THAT LASTS

Efficiency doesn't have to come at the cost of comfort. The unique properties of our polyester fibers not only ensure strength but also provide an ultra-soft feel that traditional cotton-poly blends simply cannot match. Plus, polyester is naturally stain and fade resistant–giving your customers a crisp, bright white product, even after dozens of uses.

Achieve a healthy bottom-line while delivering uncompromising comfort and performance with the Standard Express Laundry Collection.
