# POWERPRO® ONE® Multi-Material

Outperform and replace standard wood screws, sheet metal screws, and concrete/masonry screws with a single, innovative, new engineered fastener design. Eliminate the confusion when trying to decide which screw to use. The ONE® screw program simplifies your tool box with a single screw design to satisfy projects that fasten into wood, metal, concrete, drywall, and plastic. Engineered for optimum performance in multiple materials, Power Pro ONE® screws are the one screw you'll ever need!

**Star Drive**  
Eliminates cam-out

**Countersinking Nibs**  
Clean finish flush with material

**BIT included in every pack**

**Pro-Stik™ Drive Bits**  
Positive "stick-fit" bit engagement provides stable driving with no wobbling

### ONE Screw Advantages

- ✓ Drives fast and easy
- ✓ High quality and performance in multi-materials
- ✓ Finishes for all projects: interior or exterior
- ✓ No pre-drilling in wood, drywall, plastic, and metal up to 20 gauge thick (pre-drilling required for concrete and masonry applications)
- ✓ Head styles and sizes available to cover the most common wood, metal, and masonry projects
- ✓ Innovative packaging: reclosable, reusable and stackable
- ✓ Patented design
- ✓ Lifetime guarantee

**Spiral Flutes**  
Provide pullout and torsion strength in wood & concrete. Reduces frictional resistance in wood by creating hole slightly larger than unthreaded shank

**LIMITED LIFETIME GUARANTEE**

**3-Sided Pyramid Point**  
No pre-drilling in wood, drywall, plastic, and metal. Drives fast in wood with no splitting. Acts like a drill point in metal up to 20 gauge thick. Pre-drilling required for concrete and masonry applications.

**Serrated Threads**  
Provide low torque and quick driving into all materials while extending battery life

**Hi-Lo Threads**  
Increase drive speed and pullout resistance

### PRODUCT SELECTION

**Flat Head**

- Bronze epoxy coated
- Clean countersinking in wood
- Ideal for wood-to-wood, wood-to-metal and wood-to-masonry projects

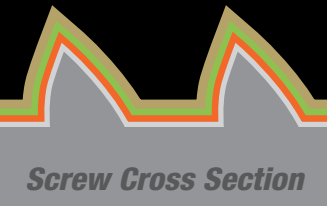

**Hex Washer Head**

- Bronze epoxy coated
- Ideal for high drive torque & large bearing surface applications
- Use for electrical, wood, metal, and masonry/concrete projects

### SCREW FINISH

**Bronze Epoxy Coated** for interior / exterior projects and treated lumber

**Durable Protective Finish**  
Repels corrosion  
**Epoxy Coating**  
Protects base coatings  
**Chemical Layer**  
Protects zinc layer from white rust  
**Metallic Zinc Layer**  
Protects metal from red rust  
**Hardened Steel**

### Bronze Epoxy Coating

An exclusive organic based finish that provides superior corrosion protection in treated lumber and outdoor applications. Formulated to withstand destructive environmental hazards such as acid rain, salt water, sunlight, and pollutants. The brilliant bronze color blends perfectly with all woods. The coating process provides 4 layers of protection against corrosion.

### PREMIUM PERFORMANCE PACKAGING

**Full Color Product Imagery**  
Reassures product type and typical application

**Driver Bit Included**  
No searching for the right size bit & it's included for free!

**Quantity Data**  
Package size & piece count improves estimating project needs

**Size Description**  
Large, easy to read & recognize

- Durable and reusable
- Reclosable and stackable
- Ideal for post purchase storage
- High impact graphics
- Small count XL Pack for the DIYer
- Larger count box targets the advanced DIYer & Pro

### PERFORMANCE ADVANTAGES VS. COMPETITION

- ✓ 30% stronger torsion, tensile, and shear strength
- ✓ 24% greater pull-out force in wood
- ✓ 23% greater pull-out force in concrete
- ✓ 25% faster time to penetrate and seat in 20 gauge metal

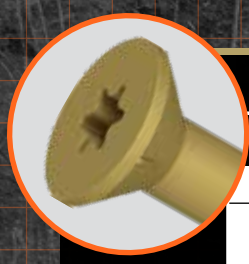

### POWER PRO® ONE® SCREW = INCREMENTAL SALES

- ★ Consumers are specifically looking for a multi-material screw.
- ★ Research shows that a multi-material claim is the #1 reason consumers purchase a multi-material screw over other available options.
- ★ Consumers are more likely to purchase a multi-material screw when they don't really know what type of fastener they need.
