

# ReVOLUTION™ I-Beam

I-BEAM TECHNOLOGY ENGINEERED FOR LIGHT WEIGHT RVs

## New to the Lightweight RV Market!

### ReVolution I-Beam Highlights

- Exclusive to LCI
- Custom rolled I-beam profile
- Eliminates the need for frame stiffeners in most applications
- Improves tank placement and under belly clearance
- The ReVolution I-Beam creates a new lightweight chassis option for OEM's

### The ReVolution I-Beam Story

Recognizing a vacancy in our I-Beam lineup, we tasked ourselves to design a new profile I-Beam that would optimize weight, strength, and aid in versatility for tank placement. The result was the ReVolution I-Beam; a rolled beam with the strength in flange radius like our larger I-Beam profiles.
