I

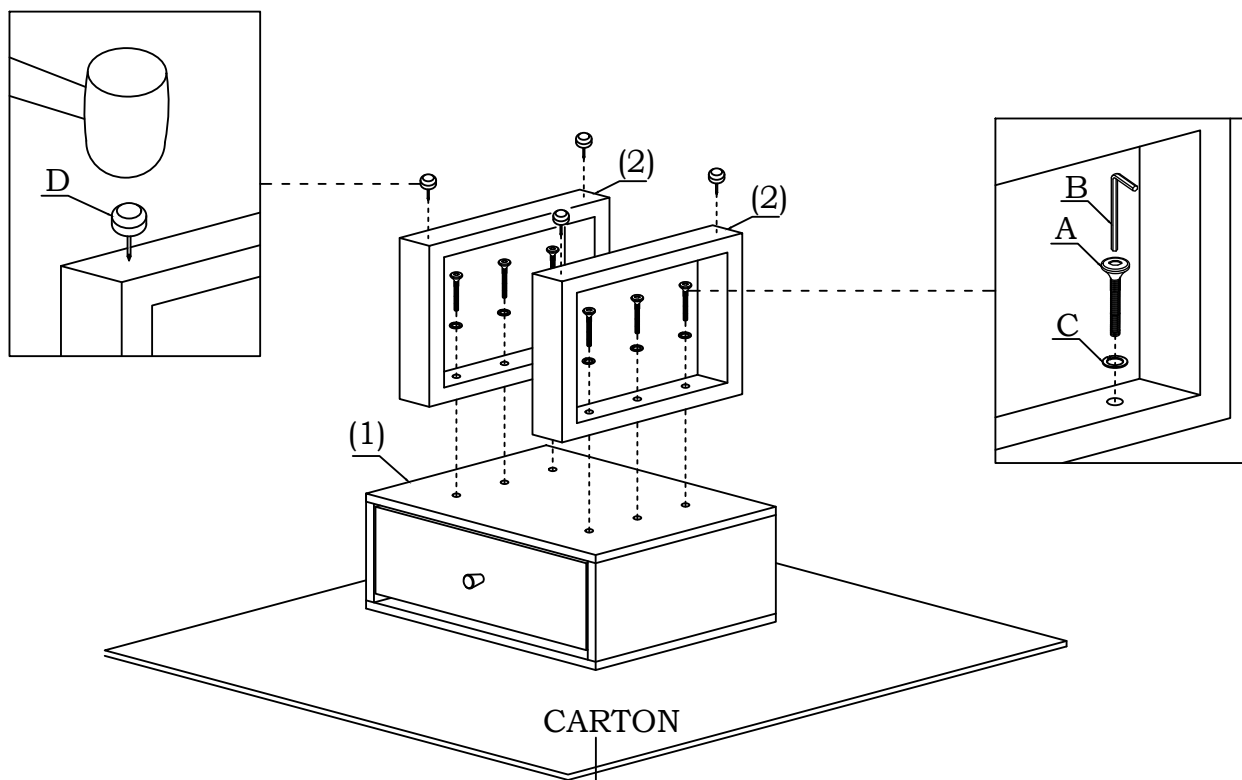

Diagram I illustrates the process of switching drawer handles from the inside to the outside of a drawer. The diagram is divided into three vertical panels on the left and a larger panel on the right.

- Top Panel:** A hand is shown using a screwdriver to remove a screw from the inside of a drawer. A large black arrow points to the left, indicating the direction of the handle's movement.
- Middle Panel:** The screw is shown being inserted into the outside of the drawer. A curved arrow indicates the rotation of the handle.
- Bottom Panel:** The screw is shown being inserted into the inside of the drawer. A curved arrow indicates the rotation of the handle.

On the right, a larger diagram shows a drawer labeled (1) with a handle. A dashed line connects the top panel to the handle. A large black arrow points to the left, and a curved arrow indicates the rotation of the handle.

Please switch the drawer handles from the inside to the outside.

II

Useful tips : assemble the furniture on the packing carton to prevent scratches.
