

# JACK & JUNE

## CANOPY

### PARTS INCLUDED

**Canopy (with bungee and hooks attached)**  
**Qty. 1**

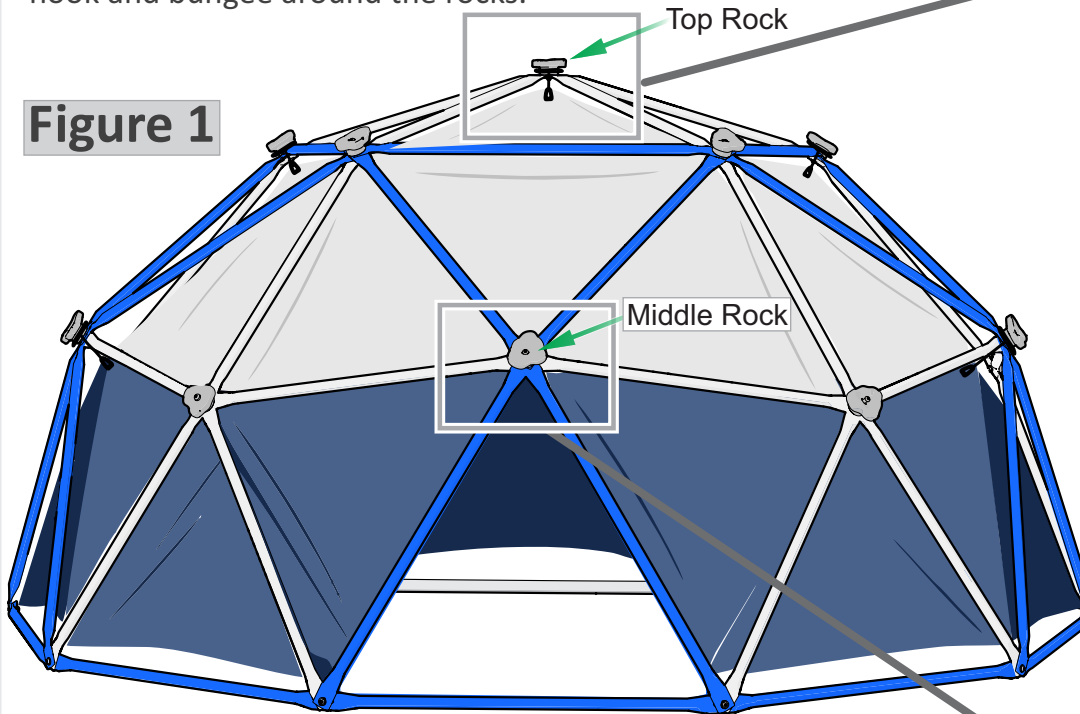

**JJ-CANOPY**

## STEP 1

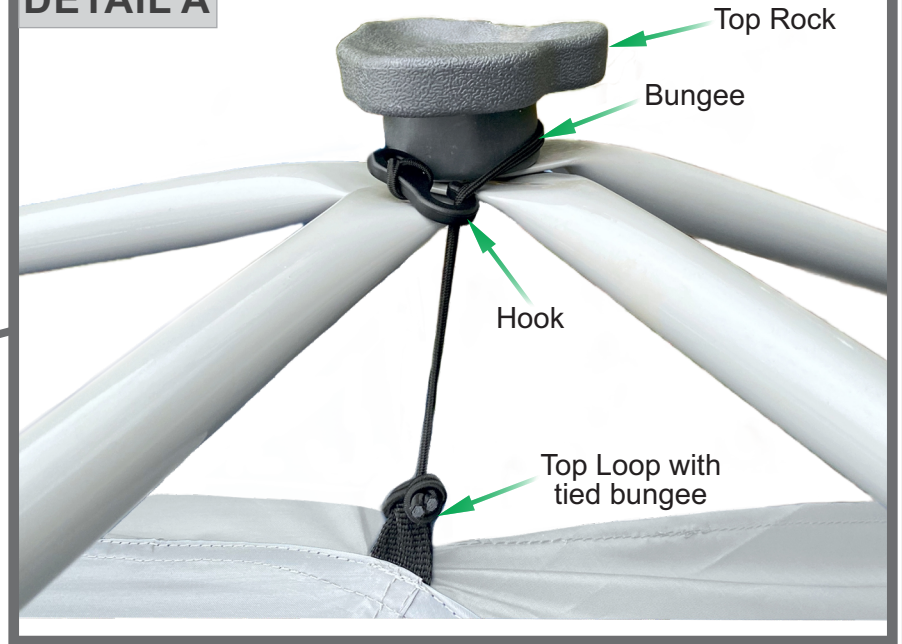

Unfold the Canopy and locate the **top loop** sewn to the canopy. Wrap the **bungee** (attached to the top loop) around the top Rock and secure the **hook** to the bungee cord. See **Figure 1** and **Detail A**.

At this point, the Canopy will hang from the top rock, locate the rest of the upper bungees and work your way around the **upper** section of the dome, wrapping the hook and bungee around the rocks.

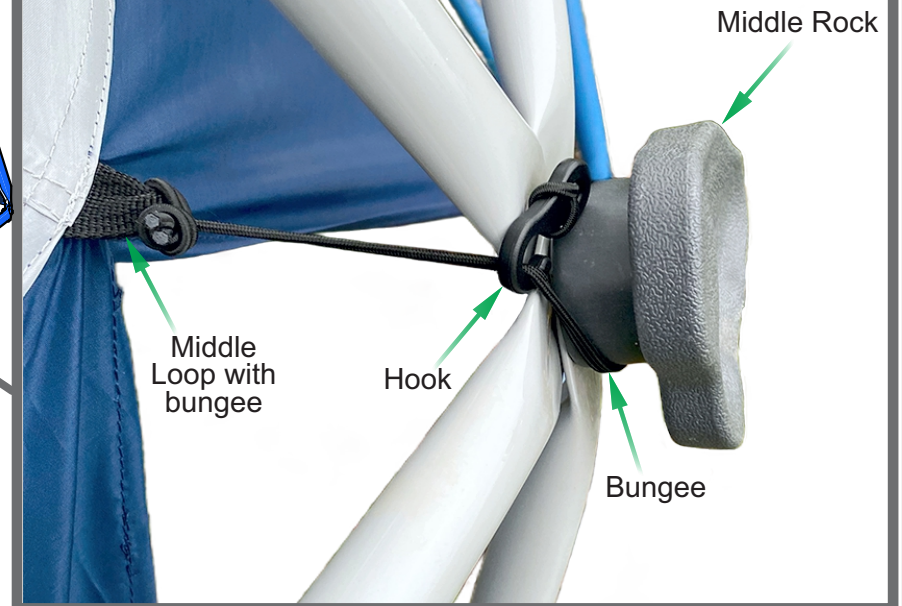

**Figure 1**

## DETAIL A

## DETAIL B

## STEP 2

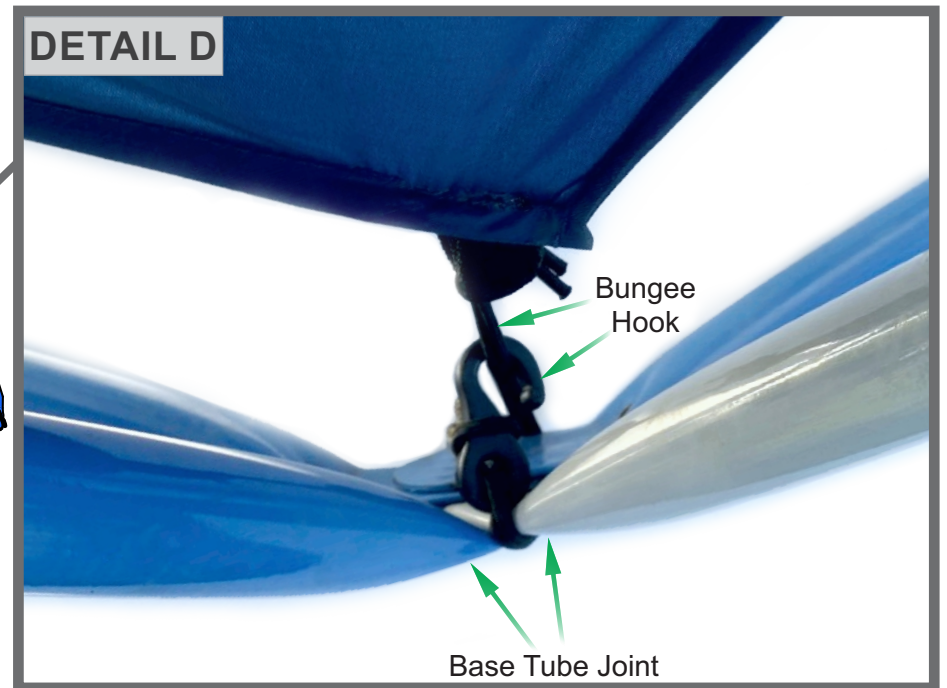

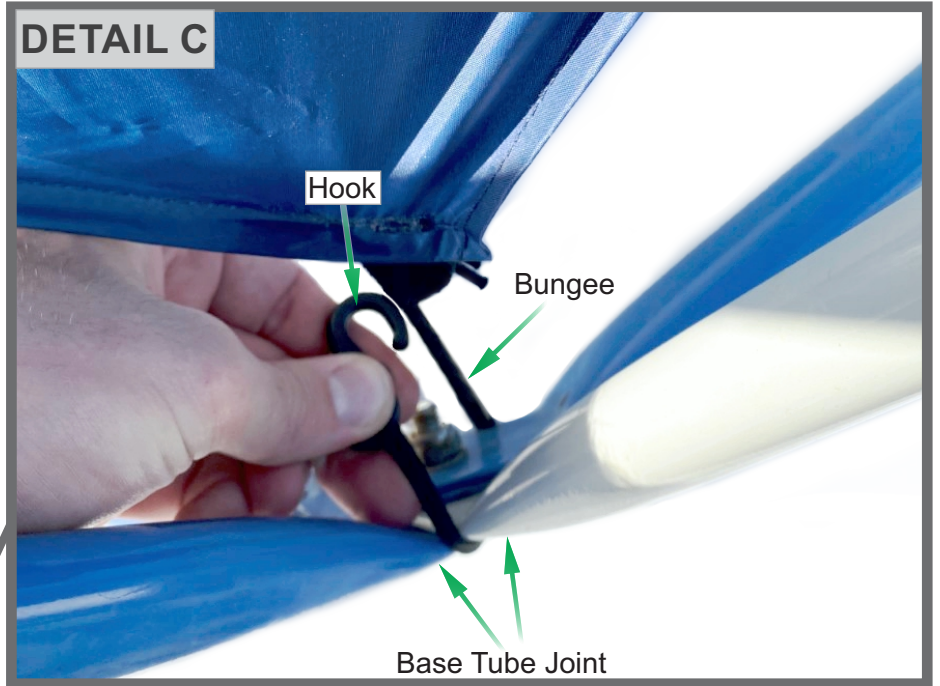

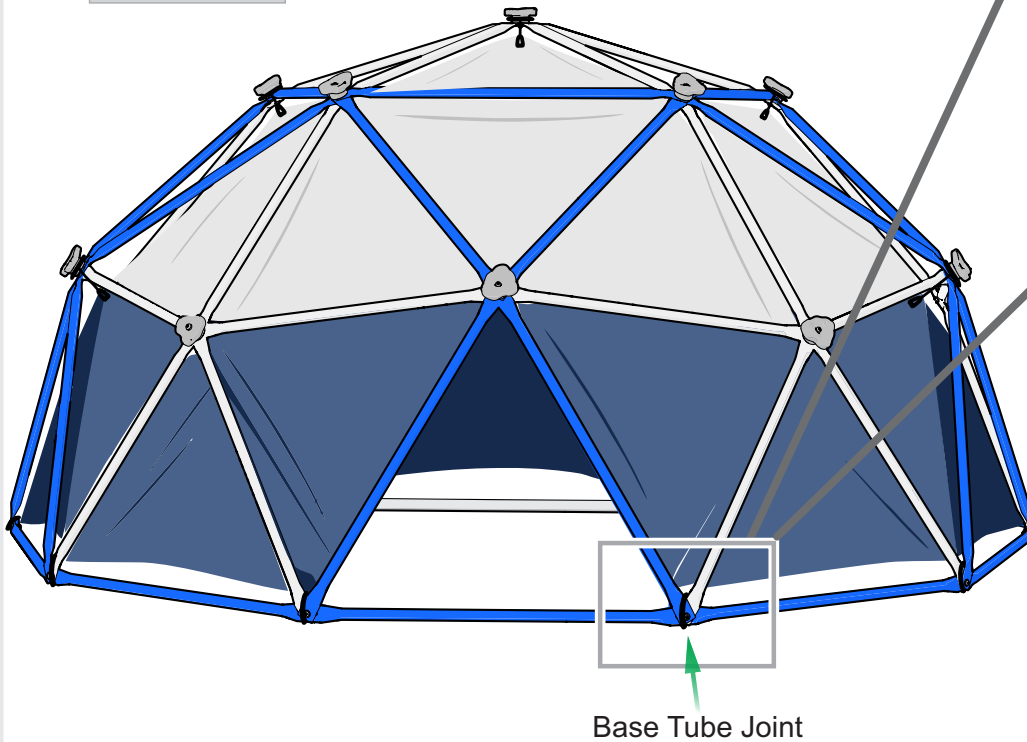

Wrap one of the **middle bungees** around a **middle rock** and secure the **hook** to the **bungee** cord. Keep working your way around the middle rocks until all hooks are secure. See **Figure 1** and **Detail B**.

### STEP 3

Wrap a bottom bungee under the **base tube joint** and between the **blue** and **tan** tubes then secure the **hook** to the **bungee cord**. See **Figure 2, Detail C & Detail D**. Keep working your way around the base tubes until all hooks are secure.

Congratulations setup is complete!

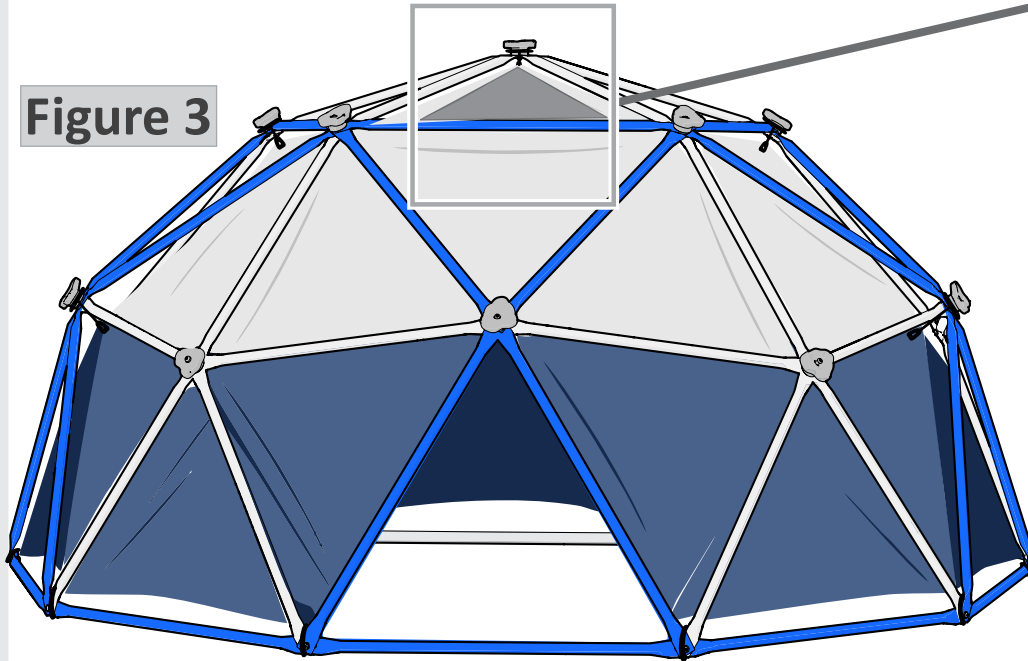

Figure 2

## Canopy Window

The Canopy has a built in mesh window. Simply unzip when needed. See **Figure 3** and **Detail E**.

**Figure 3**

**DETAIL E**

### Care & Maintenance

- Do not use the canopy during periods of strong wind and rain.
- Clean with fresh water and a soft towel only.
- Remove and store the canopy indoors when not in use.

### Warranty information

- Ninety (90) day limited warranty from the original purchase date under normal use and proper care.
