# Innovations that inspire

As one of the most innovative companies in the field of office technology, Novus is always coming up with interesting new products. We combine high-quality design with superior functionality to develop products that simplify and beautify your everyday office life.

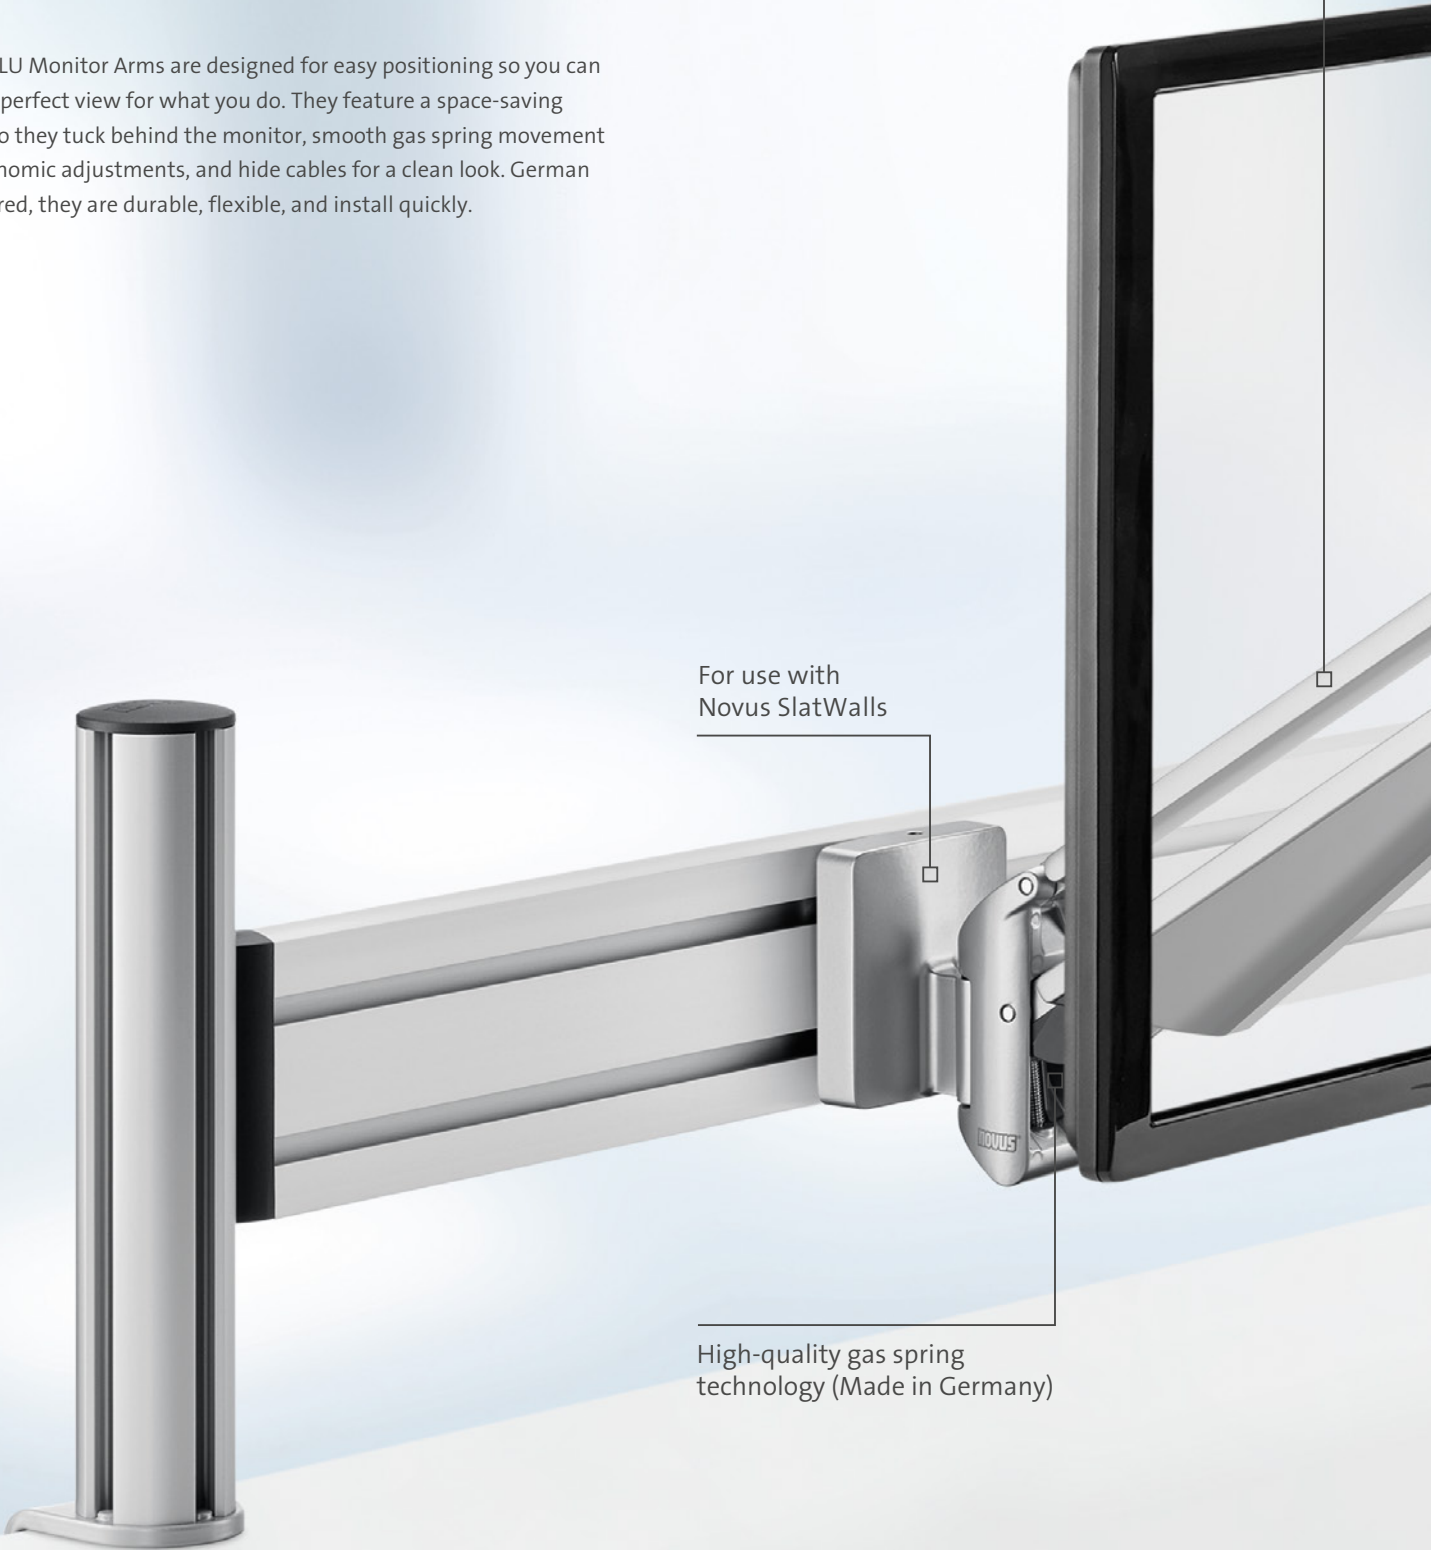

## Ergonomic flexibility in an elegant design

Novus CLU Monitor Arms are designed for easy positioning so you can find the perfect view for what you do. They feature a space-saving design so they tuck behind the monitor, smooth gas spring movement for ergonomic adjustments, and hide cables for a clean look. German engineered, they are durable, flexible, and install quickly.

1-piece monitor arm with gas technology for a comfortable, ergonomic adjustment of the monitor

For use with  
Novus SlatWalls

High-quality gas spring  
technology (Made in Germany)

Universal joint with pivot function for optimal positioning of the monitor

Clever cable routing integrated

## Novus CLU arm I, with SlatWall mount

- Mounting of flat screens from 2-7 kg
- Simple monitor mounting with QuickRelease to match the 75/100 mounting standard
- Range maximum (with SlatWall mounting) 358 mm

Model #: 725+0059+000  
Color: silver

**Magnetic strip incl. 4 magnets**

Model #: 725+0109+000  
Color: silver

## Unlimited combinations

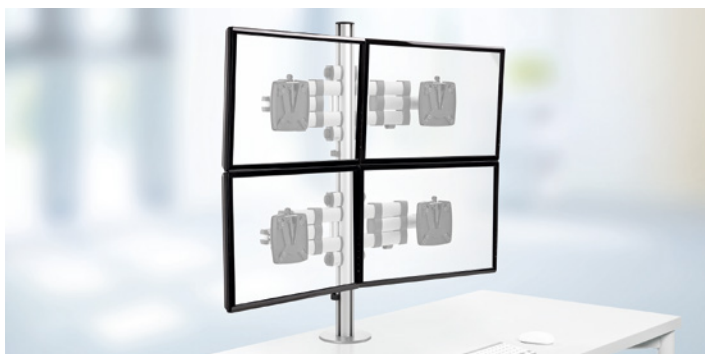

The TSS telescope monitor arms can be optimally positioned in any conceivable workspace. Monitors can be pushed together without a visible gap between them. This relieves eyestrain and prevents disturbing distractions. In addition, they offer the ability to mount monitors flat against a wall or to the edge of a table, without hitting partition walls or interfering with height-adjustable tables. The result: plenty of space on the desk with perfect monitor configuration.

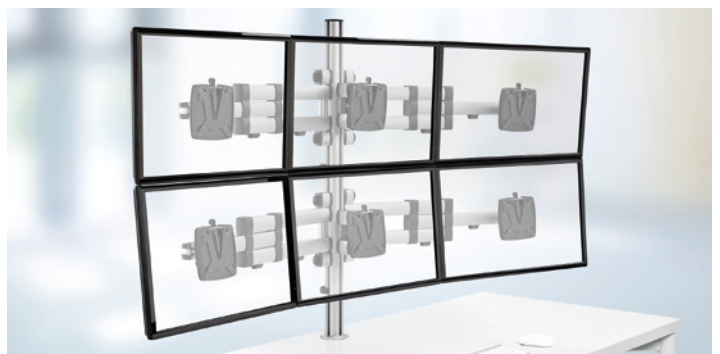

## For Every Workspace

In addition to the many possible workspace combinations, the TSS telescope arms have infinite height adjustability. They feature an elegant aluminum finish with anodized surfaces and offer simple monitor mounting.
