300 Cards, Game Board, 6 Playing Pieces, Die

OBJECT OF THE GAME

Be the first player to collect a Star Card from each of the five categories and reach a Log Out space on the Game Board.

SET UP

1. Shuffle the six decks of Cards separately and place them face down next to the Game Board.
2. Each player chooses a Playing Piece and places it on the Log In square in the center of the Game Board.

CATEGORIES

There are five Star Card categories in the game, plus a “?” deck.

ONE-STAR WONDERS: There are always winners and losers – these are the losers.

MYSTERY BASKET: Identify the mystery item being described.

FACTS & STATS: Sort out the truth from the fake news.

HISTORICAL HOWLERS: Answer questions about reviews before the days of the world wide web.

FILL IN THE BLANKS: Identify the missing words to complete these reviews.

HOW TO PLAY

1. The youngest player begins the game by rolling the Die.

2. When players roll a 1, 2, 3, 4 or 5, they move their Playing Piece that number of spaces on the Board. Pieces can be moved in any direction (but must not land back on the square they started during the same turn), and only one Playing Piece may occupy a single space on the Board at a time.
3. The player to the left draws a Card that matches the color of the space landed on and proceeds to read the question aloud to that player.
4. If the player answers correctly, that player keeps the Card (players may earn more than one Card per category). If the player answers incorrectly, the Card is returned to the bottom of the category deck.
5. When players roll a 6, they pick up a Card from the “?” category and follow the instructions on the Card.
6. Play continues clockwise with the player to Player 1's left rolling the Die and moving that number of spaces on the Game Board.

WINNING THE GAME

Once players have collected a Star Card from each category, they race to one of the Log Out squares. When a player reaches a Log Out square, that player must correctly answer a question from any category selected by the other players. The first player to reach a Log Out square and answer a question correctly wins the game.
