TACTICAL SPECIALTY HAND PROTECTION

The Tempest tactical glove is designed to tame heat and flame exposure during hard-charging operations. The glove is anatomically designed to the natural curvatures of your hand using three-dimensional patterning to create a snug fit. When it comes to functional flame resistance, the Tempest is built to weather the storm. FR Nomex® hugs the back of your hand and high-dexterity 0.6mm FR goatskin leather backed with FR cotton protects your palm. The Tempest maintains connectivity in the field with touchscreen technology in the palm of your hands.

FLAME RESISTANCE

Flame-resistant Nomex® protects the hand from heat and flame exposure.

FR LEATHER

High-dexterity 0.6mm FR goatskin leather backed with FR cotton provides critical flame resistance.
