

Safely install cables assemblies with the Cleerline™ Pulling Eyelets.

Use with assemblies including simplex, duplex, and active optical cables.

This kit incorporates PVC-jacketed aramid yarns as the strength member. The pulling eye's clip rotates, helping to decrease twisting.

Ideal for demanding installations where protection and easy cable management are critical.

This kit can be reused. Simply remove the tape used during installation and attach the kit to a new cable.

SSF-PULLEYED

FEATURES AND BENEFITS

- Sized for use with simplex, duplex, or Active Optical cables
- Enhanced protection: Protects cable assemblies for installations in wall or in conduit
- Effortless attachment: Allows for easy and secure fastening.

COMPATIBLE CABLES INCLUDE

- SSF™ Simplex and SSF™ Duplex fiber optic cable assemblies
- SSF™ 8K UHD HDMI Active Optical Cables

Compatible cables include HDMI Active Optical Cables

| PART NUMBER | CABLE | MIN. CONDUIT INNER DIAMETER (PULLING EYE ONLY) | MAX. PULLING LOAD | LENGTH |
|--------------|---|---|----------------------|----------------------|
| SSF-PULLEYED | Simplex, Duplex, and Active Optical Cables | 15 mm / 0.6 in With typical AOC: 25 mm / 1 in | 550 N/124 lbs | 0.5 meters / 19.6 in |
