Buffer Tube Slitter

Hand tool for easy mid-span access to buffer tubes

Features and Benefits

Precision Engineering
- No adjustment or tuning required
- Depth of cut is optimized for each specific tube size
- Buffer tube walls are slit open without risk of fiber damage

Rugged Construction
- Body is machined from solid aluminum
- Built for use in the real world

Recessed Blades
- Cutting surfaces are protected
- Minimal blade projection enhances tool safety

Compact and Lightweight
- Easy to transport
- Saves room in the toolkit

Clearly and Permanently Marked
- Both halves of the tool are engraved with size information
- Correct slitting direction is clearly marked
- All critical information is machined directly into the tool and cannot rub off

Heavy Duty Retaining Cord
- Keeps the two halves together for easier location and use

Buffer Tube Sizing Guides
- Allows tube dimensions to be checked without applying the tool

Quick, Safe and Easy Mid-Span Access
- Saves time, avoids injuries and protects fiber assets

Economical
- Pays for itself by avoiding dangerous work practices
- Just as effective and more durable than units costing many times more
