Dry ExpressLT(TM) Cable, SA/SJ

Dry ExpressLT(TM) Cable, SA/SJ

GENERAL INFO

Prysmian's popular **ExpressLT™** cable combines buffer tubes with enhanced flexibility, a completely dry water-blocking system, and optional **ezPREP®** armor.

The buffer tubes are also rated for mid-span storage applications. This combination of features makes **ExpressLT™** an ideal solution for applications requiring frequent sheath access and express tube storage.
