focused assortment kits
catered to support
your business.**

HILLMAN™

At The Hillman Group, we stock a comprehensive range of standard and non-standard fasteners, hardware, fittings, fluid flow components and automotive products under our Hillman, Paulin, Papco, Dominion, and Pro-Tip family of brands. Our range of products are complimented by our ability to source any item in the required size and material for any type of project. Let us help standardize your range of products or create new programs with the help from our dynamic and vibrant organization. For over 100 years, the Paulin® brand has been recognized as an industry leader. Our customers are retailers, original equipment manufacturers, industrial and automotive aftermarket distributors, and plumbing and gas wholesalers.

The Hillman Group has been a customer-first organization that built a loyal customer base centred on trust, dedication and long-lasting relationships. Paulin® being the First In Fasteners, we look forward to being The Right Fastening Choice for you.

Our five strategically situated warehouses in Vancouver, Edmonton, Winnipeg, Toronto and Montreal are conveniently located to provide courteous service to all of our customers.

The items listed in our catalogue are a representation of the products available and stocked in our distribution network. Our availability may not represent all sizes available or certain applications required. Please contact your local Hillman customer service or sales representative for additional product inquiries. Our knowledgeable staff will provide you with information and solutions that are both cost effective and reliable.

paulin® NEW Needa? BODY RETAINER KITS

Each **NEW** Needa Body Retainer Kit has an assortment of popular fasteners to replace lost or damaged auto body retainers. Used for fitting trim panel clips, door trim clips, door panel clips, bumper clips, fender clips, grille, engine cover and splash shield retainers. The installation is simple and quick. Find a similar retainer that will fit the hole in the body and insert the retainer or attach it to your trim. Retainers are made of high-quality plastic and will not break or crack for long-term performance. Fasteners are stored in a durable plastic tray with a locking lid for easy organization and storage in one place.

papeco™ BULK COLOURED BIT MERCHANDISER

022-024

- The Pro-Tip® two piece square power bit has a heat treated S-2 alloy steel tip swagged into a steel body shank.
- The tip is formed under rigid dimensional control to ensure a "Cling Fit" with the screw.
- These bits offer the best combination of hardness and toughness to ensure longer tool life.

papeco[®] STEEL BRAKE LINE MERCHANDISERS

Papcoflex steel brake line floor merchandisers are available in 4 variations and may be linked together to form a master warehouse stock to cover almost every brake line requirement. Compact wire rack measures 9-1/2" w x 20-1/2" d x 28" h and includes colour-coded, permanent PVC storage tubes for dispensing lines. Each Papcoflex Brake Line is labelled showing part number, O.D. and length.

STEEL BRAKE LINE MERCHANDISER

022-285

Contains 3 each of 28 sizes of Papcoflex Brake Lines for a total of 84 lines. Rack and tubes included.

POLY-V COATED BRAKE LINES MERCHANDISER

022-585

Contains 3 each of 28 sizes of POLY-V Coated Steel Brake Lines for a total of 84 lines. Rack and tubes included.

papco™ BRAKE / FUEL LINE REPAIR CENTER

022-550

THE EVOLUTION OF FUEL LINE REPAIR

Our 'No Tools Required' Fuel Line Repair system now enables the installer to utilize their most valuable tools: their hands.

A comprehensive application manual will be included with the Brake/Fuel Line Repair Center.

Innovative

'Posi-Hold' bead end design enables the installer to connect fittings by hand. No costly installation tools are required and the nylon tubing does not require pre-heating.

Connections

It meet or exceed the 200 p.s.i. rating of Nylon 12 tubing when used in conjunction with the appropriate size tubing and 360° seal clamps.

Replace

For the damaged sections, fabricate complete fuel lines, repair main feed, return and vent fuel lines in the time it takes to set up most installation tools.

POLY-V Coated Brake Lines

Included in the Brake/Fuel Line Repair Center, Papcoflex **POLY-V** coated brake lines feature a durable polyvinyl fluoride finish that resists corrosion and abrasions from road debris, offering up to 30 times the protection over our standard steel brake line.

To complement this premium brake line, all related brake line fittings, adaptors, unions, and bleeder screws will be offered in the Brake/Fuel line Repair Center providing one destination point for your customers. POP signage will also outline the correct size, thread type and the correct adaptors/unions for each brake line diameter.

FULL THREAD HEXAGON HEAD SCREWS # 933 - DIN & ISO DIMENSIONS

Ref: DIN 933 - 1987

This standard contains specifications for fully threaded hexagon head screws with coarse metric thread for diameters M 1.6 to M 52. Although long-term expectation is for DIN to be superseded by ISO (lower half of page), current MMCC product # 933 is supplied according to DIN dimensions below.

Nom. Thread Diameter (D)		Dimensions in mm.
