### 4K Resolution

Intelligent UHD upscaling technology allows content developed at a lower resolution to be elevated to UHD-level quality.

### Slim and symmetrical design

Symmetric design simplifying wall mounting and ensuring installation is seamless.

### All-In-One Solution

SSSP is an all-in-one solution that simplifies installation and maintenance.

# Stand Alone LFD

8K and 4K Smart Signage

# QPA-8K

QP75A-8K (75"), QP85A-8K (85")  
8K UHD business TV displays.

## Example Applications:

Flagship signage  
High resolution imaging

## Key Features:

7680x4320 UHD 8K resolution  
500nits 16/7 QLED LFD  
Attachable slim One Connect  
Includes table stand  
DICOM sim mode and director mode for content creation  
SSSP 9.0 / S9 Player (SoC) onboard with Tizen 6.0  
Wi-Fi and Bluetooth onboard  
Integrated Miracast screen mirroring and Samsung Workspace

# BED-H Series – Business TV

BE43D-H (43”), BE50D-H (50”), BE55D-H (55”), BE65D-H (65”), BE75D-H (75”), BE85D-H (85”)  
4K UHD business TV displays.

## Example Applications:

Digital signage  
Commercial grade TV  
Conference room display

## Key Features:

3840x2160 UHD 4K resolution with Crystal Color  
300nits 16/7 edge lit LED LFD  
Landscape only  
Integrated signage with VXT CMS and Business TV App  
Integrated Miracast screen mirroring  
Wi-Fi and Bluetooth onboard  
Integrated TV tuner  
Includes table stand

**TIZEN**™

**SAMSUNG**

# QET Series

QE43T (43"), QE50T (50"), QE55T (55"), QE65T (65"), QE75T (75"), QE85T (85")

Entry level, Low-cost commercial grade 4K UHD LFD.

## Example Applications:

High resolution display use  
4K digital signage

## Key Features:

3840x2160 UHD 4K resolution with Crystal UHD  
300nits 16/7 direct lit LED LFD  
3-sided bezel-less CE TV design  
Simple SoC with MagicINFO Lite

**TIZEN**<sup>™</sup>

**SAMSUNG**

# QEC Series

## QE98C (98")

Entry level, Low-cost commercial grade large size 4K UHD LFD.

### Example Applications:

High resolution display use  
4K digital signage

### Key Features:

3840x2160 UHD 4K resolution with Crystal UHD  
450nits 16/7 direct lit LED LFD  
3-sided bezel-less CE TV design  
Wi-Fi and Bluetooth onboard  
Simple SoC with MagicINFO Lite

**TIZEN**<sup>™</sup>

**SAMSUNG**

# QBC Series

QB43C (43"), QB50C (50"), QB55C (55"), QB65C (65"), QB75C (75"), QB85C (85")

High performance commercial grade 4K UHD LFD.

## Example Applications:

High resolution display use  
4K digital signage

## Key Features:

- 3840x2160 UHD 4K resolution with Dynamic Crystal Color and HDR10+
- 350nits 16/7 edge lit LED LFD
- SSSP 10.0 / S10 Player (SoC) onboard with Tizen 7
- Wi-Fi and Bluetooth onboard
- Integrated Miracast screen mirroring and Remote Workspace
- IP5X rating for dust
- SmartView+ - app based screen sharing for nearly any platform. Through a dedicated app, or a browser, you can share up to 4 devices per display
- Gyro sensor – this allows for automatic portrait rotation without changing menu settings during setup, and on screen leveling during installation
- EZCal – app-based calibration, allowing for more accurate images
- DICOM sim mode and director mode for content creation
- Upgradeable web browser
- Tizen Business Manager for managing deployment across multiple displays

**TIZEN**<sup>™</sup>

**SAMSUNG**

# QBT-B Series

## QB98T-B (98")

True commercial grade, large size 4K UHD LFD.

### Example Applications:

High resolution display use  
4K digital signage

### Key Features:

3840x2160 UHD 4K resolution  
350nits 16/7 edge lit LED LFD  
SSSP 6.0 / S6 Player (SoC) onboard with Tizen 4.0  
2.4 GHz Wi-Fi ONLY  
Integrated Miracast screen mirroring and Samsung Workspace

**TIZEN**<sup>™</sup>

**SAMSUNG**

# QBC-N Series

QB55C-N (55"), QB65C-N (65"), QB75C-N (75"), QB85C-N (85")

High performance commercial grade 4K UHD LFD.

No wireless for sensitive applications.

## Example Applications:

High resolution display use

4K digital signage

## Key Features:

- 3840x2160 UHD 4K resolution with Dynamic Crystal Color and HDR10+
- 350nits 16/7 edge lit LED LFD
- SSSP 10.0 / S10 Player (SoC) onboard with Tizen 7
- IP5X rating for dust
- Gyro sensor – this allows for automatic portrait rotation without changing menu settings during setup, and on screen leveling during installation
- EZCal – app-based calibration, allowing for more accurate images
- DICOM sim mode and director mode for content creation
- Upgradeable web browser
- Tizen Business Manager for managing deployment across multiple displays

**TIZEN**<sup>™</sup>

**SAMSUNG**

# QMC Series

QM32C (32"), QM43C (43"), QM50C (50"), QM55C (55"), QM65C (65"),  
QM75C (75"), QM85C (85")

High performance commercial grade 4K UHD LFD.

## Example Applications:

High resolution display use  
4K digital signage

## Key Features:

- 3840x2160 UHD 4K resolution with Dynamic Crystal Color and HDR10+
- 500nits 24/7 anti-glare edge lit LED LFD
- SSSP 10.0 / S10 Player (SoC) onboard with Tizen 7
- Wi-Fi and Bluetooth onboard
- Integrated Miracast screen mirroring and Remote Workspace
- IP5X rating for dust
- SmartView+ - app based screen sharing for nearly any platform. Through a dedicated app, or a browser, you can share up to 4 devices per display
- Gyro sensor – this allows for automatic portrait rotation without changing menu settings during setup, and on screen leveling during installation
- EZCal – app-based calibration, allowing for more accurate images
- DICOM sim mode and director mode for content creation
- Upgradeable web browser
- Tizen Business Manager for managing deployment across multiple displays

**TIZEN**<sup>™</sup>

**SAMSUNG**

# QMT-B Series

## QM98T-B (98")

True commercial grade, large size 4K UHD LFD.

### Example Applications:

High resolution display use  
4K digital signage

### Key Features:

3840x2160 UHD 4K resolution  
500nits 24/7 edge lit LED LFD  
SSSP 6.0 / S6 Player (SoC) onboard with Tizen 4.0  
2.4 GHz Wi-Fi ONLY  
Integrated Miracast screen mirroring and Samsung Workspace

**TIZEN**™

**SAMSUNG**

# QHC Series

QH43C (43"), QH50C (50"), QH55C (55"), QH65C (65"), QH75C (75")  
High performance commercial grade 4K UHD LFD.

## Example Applications:

High resolution display use  
4K digital signage

## Key Features:

- 3840x2160 UHD 4K resolution with Dynamic Crystal Color and HDR10+
- 700nits 24/7 edge lit LED LFD
- SSSP 10.0 / S10 Player (SoC) onboard with Tizen 6.5
- Wi-Fi and Bluetooth onboard
- Integrated Miracast screen mirroring and Remote Workspace
- IP5X rating for dust
- SmartView+ - app based screen sharing for nearly any platform. Through a dedicated app, or a browser, you can share up to 4 devices per display.
- Gyro sensor – this allows for automatic portrait rotation without changing menu settings during setup, and on screen leveling during installation
- EZCal – app-based calibration, allowing for more accurate images
- DICOM sim mode and director mode for content creation
- Videoconferencing built in – using USB cameras, we can run meetings from the LFD without needing a separate device.
- Upgradeable web browser.
- Tizen Business Manager for customizing menus and managing deployment across multiple displays.

**TIZEN**<sup>™</sup>

**SAMSUNG**

# Videowall LFD

# VMB-U Series

## VM46B-U (46"), VM55B-U (55")

Ultra narrow bezel, thin profile videowall LFD solution, with 4K UHD daisy chain capability.

### Key Features:

1920x1080 Full HD resolution

500 nit direct lit 24/7 LED display

2.3mm bezel (top / left) 1.2mm (bottom / right) for 3.5mm B to B

Advanced Color Management (ACM)

Center IR, slim 69.9MM depth

Integrated videowall processor with loop through

Loop through supports up to 4K UHD input resolution (5x5)

No SoC onboard

**TIZEN**<sup>™</sup>

**SAMSUNG**

# VMT-E Series

## VM55B-E (55")

Extreme narrow bezel high performance videowall LFD solution, with 4K UHD daisy chain capability.

### Key Features:

1920x1080 Full HD resolution

500 nit direct lit 24/7 LED display

Ultra-slim 1.15mm bezel (top / left) 0.55mm (bottom / right) for 1.7mm B to B

Center IR, slim 70.5MM depth

Advanced Color Management (ACM)

Integrated videowall processor with loop through

Loop through supports up to 4K UHD input resolution (5x5)

No SoC onboard

# VHT-E Series

## VH55B-E (55")

Extreme narrow bezel high performance videowall LFD solution, with 4K UHD daisy chain capability.

### Key Features:

1920x1080 Full HD resolution

700 nit direct lit 24/7 LED display

Ultra-slim 1.15mm bezel (top / left) 0.55mm (bottom / right) for 1.7mm B to B

Center IR, slim 70.5MM depth

Advanced Color Management (ACM)

Integrated videowall processor with loop through

Loop through supports up to 4K UHD input resolution (5x5)

No SoC onboard

# VHR-R Series

## VH55R-R (55")

Razor narrow bezel, thin profile videowall LFD solution, with 4K UHD daisy chain capability.

### Key Features:

1920x1080 Full HD resolution

700 nit direct lit 24/7 LED display

### 0.8mm B to B

Advanced Color Management (ACM)

Integrated videowall processor with loop through

Loop through supports up to 4K UHD input resolution

No SoC onboard

**TIZEN**™

**SAMSUNG**

# Outdoor / Semi- Outdoor LFD

# BHT Series – Terrace Pro

BH55T (55"), BH65T (65"), BH75T (75")

Outdoor Business TV

## Example Applications:

Simple signage

Commercial grade TV outdoors

## Key Features:

3840x2160 UHD 4K resolution QLED

1500nits 16/7 edge lit LED LFD

Landscape only

Integrated signage with simple SoC and Business TV app

Wi-Fi and Bluetooth onboard

Integrated TV tuner and HDBaseT input

Anti-reflective coating

# OMB Series

## OM55B (55")

High brightness LFD for non-IP rated applications (including videowalls), dealing with high ambient light.

### Example Applications:

Brightly lit atriums  
Well lit lobbies  
Retail store windows

### Key Features:

1920x1080 Full HD resolution  
4000 nit 24/7 edge lit LED LFD  
19.9mm bezel width  
SSSP 6.0 / S6 Player (SoC) onboard with Tizen 4.0  
Wi-Fi onboard  
IP5X rated against dust  
Not outdoor IP rated, intended for indoor sunlight use

**TIZEN**™

**SAMSUNG**

# OMA Series

## OM75A (75")

High brightness LFD for non-IP rated applications (including videowalls), dealing with high ambient light.

### Example Applications:

Brightly lit atriums  
Well lit lobbies  
Retail store windows

### Key Features:

1920x1080 Full HD resolution  
4000 nit 24/7 edge lit LED LFD  
19.9mm bezel width  
SSSP 6.0 / S6 Player (SoC) onboard with Tizen 4.0  
Wi-Fi onboard  
IP5X rated against dust  
Not outdoor IP rated, intended for indoor sunlight use

**TIZEN**™

**SAMSUNG**

# OMN-D Series

## OM55N-D (55")

High brightness **DUAL SIDED** LFD for high ambient light.

### Example Applications:

Brightly lit atriums  
Well lit lobbies  
Retail store windows

### Key Features:

PORTRAIT ONLY  
1920x1080 Full HD resolution  
3000 nit (front) / 1000 nit (back) 24/7 edge lit LED LFD  
22.8mm bezel width  
SSSP 6.0 / S6 Player (SoC) onboard with Tizen 4.0  
Wi-Fi onboard  
IP5X rated against dust  
Not IP rated, intended for indoor sunlight use

**TIZEN**™

**SAMSUNG**

# OHB Series

## OH24B (24"), OH46B-S (46")

Fully enclosed, IP rated high brightness LFD for applications dealing with high ambient light, that does not require a separate enclosure.

### Example Applications:

Wayfinding outdoors

Digital signage for theme parks / sports venues / garages

Train / subway stations

### Key Features:

1920x1080 Full HD resolution

3500 nit 24/7 direct lit LED LFD

SSSP 10.0 / S10 Player (SoC) onboard

IP56 rated

Tempered armor glass front for impact resistance

**TIZEN**<sup>™</sup>

**SAMSUNG**

# OHA-S Series

## OH55A-S2 (55")

Fully enclosed, IP rated high brightness LFD for applications dealing with high ambient light, that does not require a separate enclosure.

### Example Applications:

Wayfinding outdoors

Digital signage for theme parks / sports venues / garages

Train / subway stations

### Key Features:

1920x1080 Full HD resolution

3500 nit 24/7 direct lit LED LFD

SSSP 6.0 / S6 Player (SoC) onboard

IP56 rated

Tempered armor glass front for impact resistance

**TIZEN**<sup>™</sup>

**SAMSUNG**

# OHA Series

## OH75A (75")

Fully enclosed, IP rated high brightness LFD for applications dealing with high ambient light, that does not require a separate enclosure.

### Example Applications:

Wayfinding outdoors

Digital signage for theme parks / sports venues / garages

Train / subway stations

### Key Features:

1920x1080 Full HD resolution

3500 nit 24/7 direct lit LED LFD

SSSP 6.0 / S6 Player (SoC) onboard

IP56 rated

Tempered armor glass front for impact resistance

**TIZEN**™

**SAMSUNG**

# Interactive LFD

# QMR-T Series

## QM32R-T (32")

Mainstream commercial grade 4K UHD LFD with touch.

### Example Applications:

High resolution display use  
4K digital signage

### Key Features:

3840x2160 UHD 4K resolution with Dynamic Crystal Color and HDR10  
400nits 24/7 edge lit LED LFD (with touch glass)  
26.0MM T/S, 21.0MM B bezel width  
SSSP 6.0 / S6 Player (SoC) onboard with Tizen 4.0  
10 point capacitive touch  
Wi-Fi and Bluetooth onboard  
Integrated Miracast screen mirroring and Remote Workspace  
IP5X rating for dust

**TIZEN**<sup>™</sup>

**SAMSUNG**

# QMB-T Series

QM43B-T (43"), QM55B-T (55")

Mainstream commercial grade 4K UHD LFD with touch.

## Example Applications:

High resolution display use  
4K digital signage

## Key Features:

3840x2160 UHD 4K resolution with Dynamic Crystal Color and HDR10  
400nits 24/7 edge lit LED LFD (with touch glass)  
26.0MM T/S, 21.0MM B bezel width  
SSSP 6.0 / S6 Player (SoC) onboard with Tizen 4.0  
10 point capacitive touch  
Wi-Fi and Bluetooth onboard  
Integrated Miracast screen mirroring and Remote Workspace  
IP5X rating for dust

**TIZEN**<sup>™</sup>

**SAMSUNG**

# WMB Series – FLIP 4 / FLIP Pro

WM55B (55”), WM65B (65”), WM75B (75”), WM85B (85”)

An interactive digital flipchart designed for creative thinking, collaboration and innovation

## Key Features:

3840x2160 4K UHD resolution

350nit edge lit 16/7 LED display

Factory integrated advanced IR 4-point touch

Included Flip collaboration software

Full touch control

Wi-Fi with integrated Miracast screen mirroring (input and output) and Airplay

Includes 2 passive pens

OPS Slot optional on 75” and 85” models.

**TIZEN**™

**SAMSUNG**

# WAD Series

## WA65D (65"), WA75D (75"), WA86D (86")

An interactive digital flipchart designed for creative thinking, collaboration and innovation.

EDLA Certified with Android 13

### Key Features:

3840x2160 4K UHD resolution

350nit edge lit 16/7 LED display

Factory integrated advanced IR 4-point touch

Android 13 OS with education tools

Full touch control

Wi-Fi with integrated Miracast screen mirroring (input and output) and Airplay

Includes 2 passive pens

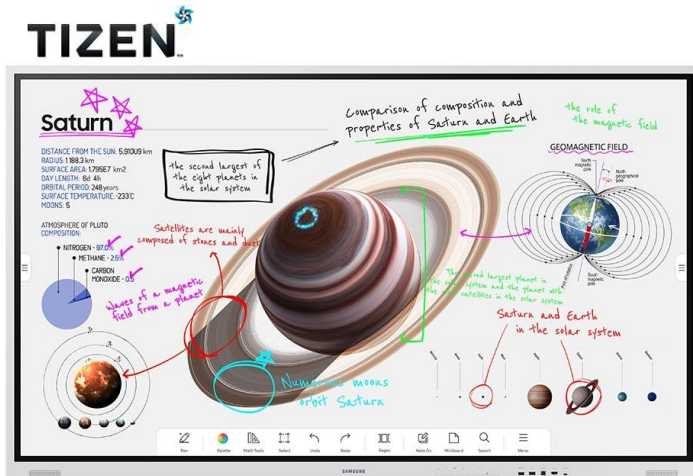

OPS Slot optional.

# WMB and WAD

One is not necessarily better than the other, that depends on your customer's needs; Hence, it is important for you to discover what their underlying needs are first

## Easy to learn and start immediately

- Intentionally minimized features to make it easier to get started, but advanced users might desire more
- MI RMS compatible
- Good for: Those schools who are just transitioning from Projectors

\* Product design not finalized

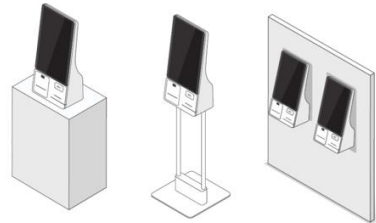

## Packed with features for intermediate to advanced users

- Packed with features, but it's really up for the users to learn how to incorporate them into learning pedagogy
- MDM Compatible (Radix)
- Good For: Those schools who are transitioning from other IFPDs

# Specialty LFD

# SAMSUNG Kiosk – KM24A / KM24C

TIZEN<sup>™</sup> / Windows 10 IoT

/ Easy Replacement of Printer Paper

/ Attachment of Accessory for Each Country

Compact & Modern Design

All-In-One Solution Touch Display, Speaker, SOC, Stands, Terminal, Printer

Flexible installation options

Reliability & Security  
Tizen Platform

RMS

Competitive Pricing

# QB13R-M / QB13R-TM

Entry level, small sized, commercial grade LFD.

## Example Applications:

Room signage

Retail signage

## Key Features:

13" FHD 1080P

300nits 16/7 edge lit LED LFD

12.2MM bezel width

SSSP 6.0 / S6 Player (SoC) onboard with Tizen 4.0

Wi-Fi onboard

Includes table stand

Touch option available

**TIZEN**<sup>™</sup>

**SAMSUNG**

# QB24C / QB24C-T

Entry level, small sized, commercial grade LFD.

## Example Applications:

Room signage

Retail signage

## Key Features:

24" FHD 1080P

300nits 16/7 edge lit LED LFD

12.2MM bezel width

SSSP 10.0 / S10 Player (SoC) onboard with Tizen 7

Wi-Fi onboard

Includes table stand

Touch option available

**TIZEN**<sup>™</sup>

**SAMSUNG**

# SHC Series

## SH37C (37")

Ultra-wide format stretch LFD for digital signage.

### Key Features:

1920x540 resolution

Stretch form factor

700nit slim direct lit 24/7 LED LFD

12mm (T/B), 5.7mm(L/R) bezel width

SSSP 10.0 / S10 Player (SoC) onboard

Wi-Fi and Bluetooth onboard

**TIZEN**™

**SAMSUNG**
