

STANDARD 040

Standard 040: The student will be able to identify the major components of the cell and describe their functions.

- 1. Identify the major components of the cell.
- 2. Describe the functions of the major components of the cell.
- 3. Compare and contrast the structure and function of the major components of the cell.

- 4. Explain the relationship between the structure and function of the major components of the cell.
- 5. Describe the process of cell division.
- 6. Explain the role of the cell in the organism.

STANDARD 040: The student will be able to identify the major components of the cell and describe their functions.

- 1. Identify the major components of the cell.
- 2. Describe the functions of the major components of the cell.
- 3. Compare and contrast the structure and function of the major components of the cell.
