Through these recycling processes Crossville recycles nearly 12 million pounds of previously discarded filtrate and fired tile waste. Recommended Use

Argent is recommended for interior floors, walls, countertops, and exterior walls in both residential and commercial applications. Argent is not recommended for exterior horizontal surfaces or exterior paving. **The honed finish is not recommended for wet areas where standing water may occur.** If offset pattern is required for tiles 15 inches or longer, Crossville® recommends an offset of not greater than 33%. If an offset greater than 33% is specified, specifier and owner must approve mock-up and lippage. See CrossvilleInc.com for detailed installation instructions.

Regular cleaning is the best way to keep Argent tile looking good for years to come. Use clean, hot water (combined with a household cleaner for more aggressive cleaning).
