1

Before assembling the unit, ensure your cabinet meets the minimum size requirements shown above.

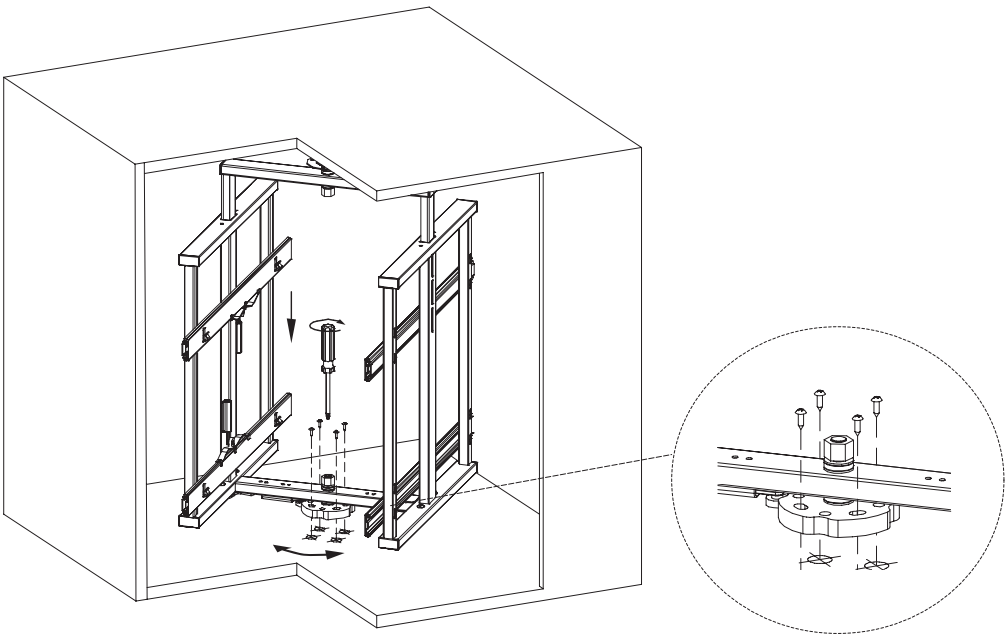

NOTE: Unit attaches to underside of countertop. A support board (not provided) may need to be installed to properly secure the unit.

2

Assemble unit as shown, placing both top and bottom brackets into the left and right frames. Depending on cabinet opening, unit may have to be assembled inside of the cabinet.

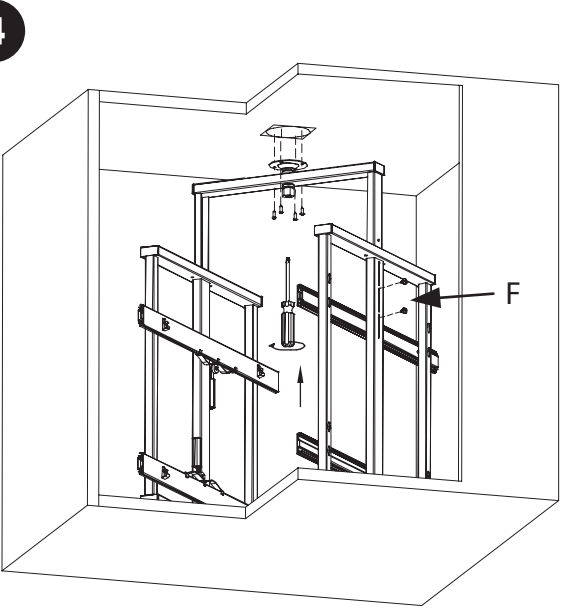

3

Place unit inside cabinet and position so it has proper clearances from cabinet walls and door opening. Secure bottom base using 4 wood screws (recommended #8 x 1-1/2")

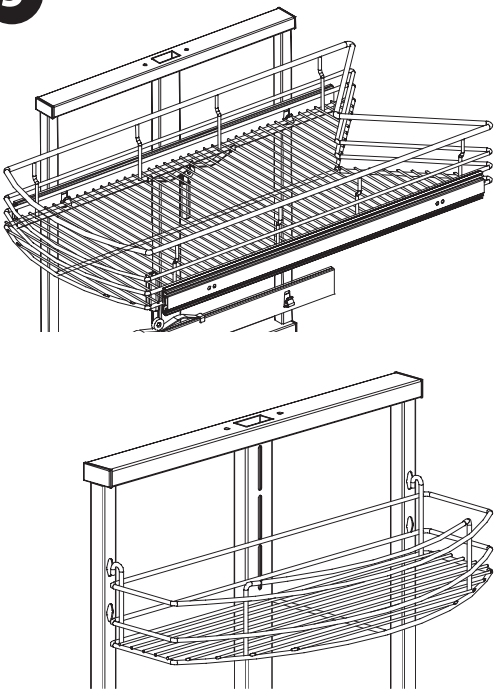

NOTE: Temporarily attach inner and outer baskets to ensure clearances before securing.

4

Raise top bracket so that upper swivel contacts support board and secure with 4 wood screws (recommended #8 x 1"). Install and tighten 4 machine screws (F) to both sides as shown.

5

Install inner and outer baskets as shown.
