

ETP-MTE-WP – Wireless ECO TOWER™ Emergency Phone Tower with Pole

Description

The wireless **ECO TOWER™** emergency phone tower, model **ETP-MTE-WP** is designed for stand-alone remote area installations, where local power and/or communication lines are not available. Durable yet lightweight, this aluminum tower combines economy and ecology into one stylish product. An always-lit LED Blue Light mounted atop the tower provides high visibility and gives passers-by a sense of security. Patrons can call emergency personnel with a simple push of a button. At the same time, the LED Blue Light begins to flash. The Emergency Phone faceplate is illuminated at all times for clear visibility during the night.

Talk-A-Phone's wireless ECO TOWER™ emergency phone tower is designed to integrate with a cellular or radio frequency interface and either solar or switched power to provide a reliable, completely wireless Emergency Phone Station.

Features

- Light weight aluminum construction for reduced ecological footprint and one-person installation
- Durable, multilayer powder coating achieves near-zero waste and VOC (volatile organic compound) emissions
- Modular construction allows for easy upgrades
- Internal mounting plates and shelves provide clean mounting solutions for batteries and other accessories
- Built-in 2.5" O.D. pole for mounting wireless devices and solar panels
- Louvered panel provides passive ventilation to keep internal components dry
- Emergency Phone is illuminated at all times by an LED Panel Light
- Vandal-resistant and designed to resist extreme weather conditions
- A variety of signage, graphics and color choices are available
- Easily mount any Talk-A-Phone ETP-400 Series or VOIP-500 Series Emergency/Information Phone into the unit (sold separately)
- ADA-compliant
