# CLU

# Novus CLU II

○ ● ●
white  black  silver

The Novus CLU II is designed with a taller, longer profile to elevate a larger monitor into a comfortable viewing position. It features a space-saving design that neatly tucks behind the monitor, smooth gas spring movement for ergonomic adjustments, and hides cables for a clean look. German engineered for durability, this monitor arm installs quickly on any work surface.

*Stabilus Gas Spring for smooth, vertical movement.*

## Features | Benefits

- Designed with a taller profile, it's ideal for larger monitors and portrait mode viewing

- Enhances physical comfort and improves ergonomics with custom-fit adjustability

- Provides more space by elevating a single monitor above the work surface

- Smooth joint movement for easily changing distance, angle, and monitor orientation

- Arm conceals behind monitor and includes cable management

- Stabilus Gas Spring with adjustable counterbalance for effortless vertical movement

- German engineered with aluminum construction guarantees quality and durability

- Weight capacity up to 15.4 lbs

- Fast installation on any work surface

*QuickRelease connection makes it easy to relocate or upgrade monitors.*
