Safety Information

PLEASE READ BEFORE INSTALLING!

IMPORTANT SAFEGUARDS:

ALWAYS FOLLOW BASIC SAFETY PRECAUTIONS WHEN USING ELECTRICAL PRODUCTS, ESPECIALLY WHEN CHILDREN ARE PRESENT.

CAUTION: This product is not user-serviceable. Do not attempt to open the product enclosure for any reason. Before installing your smart video doorbell, thoroughly review enclosed installation guide. If you do not have sufficient electrical wiring experience, please have your smart video doorbell installed by a certified electrician. Operating temperature range is 32°F to 113°F (0°C to 45°C). This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and hazards involved.

CAUTION: Contains (2) 18650 Lithium-Ion Batteries.

WARNING: This product may represent a possible shock or fire hazard if improperly installed or attached in any way. Product should be installed in accordance with the owner's manual, current electrical codes and/or the current National Electric Code (NEC).

Supplier's Declaration of Conformity: 47 CFR § 2.1077 Compliance Information

Responsible Party: Feit Electric Company

4901 Gregg Road

Pico Rivera, CA 90660, USA

Unique Identifier: CAM2/DOOR/WIFI/BAT

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help. Any changes or modifications not expressly approved by the manufacturer could void the user's authority to operate the equipment. CAN ICES-005 (B).

The device has been evaluated to meet general RF exposure requirement.

The device can be used in portable exposure condition without restriction.

The device can be used in mobile (min 7.87 in.) exposure condition without restriction.

Radiation Exposure Statement

This device complies with FCC radiation exposure limits set forth for an uncontrolled environment. This device should be installed and operated with a minimum distance of 20cm between the radiator and your body.

Limited Warranty

This product is warrantied to be free from defects in workmanship and materials for up to 1 year from date of purchase. If the product fails within the warranty period, please visit feit.com/help for instructions on replacement/refund. REPLACEMENT OR REFUND IS YOUR SOLE REMEDY. EXCEPT TO THE EXTENT PROHIBITED BY APPLICABLE LAW, ANY IMPLIED WARRANTIES ARE LIMITED IN DURATION TO THE DURATION OF THIS WARRANTY. LIABILITY FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES IS HEREBY EXPRESSLY EXCLUDED. Some states and provinces do not allow the exclusion of incidental or consequential damages, so the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state or province to province.

Description

Item	Description
Doorbell Button	Press to activate the doorbell.
Status Light	<ul style="list-style-type: none"> • Blinking red = Pairing Mode • Slow blinking blue=connection to Wi-Fi • Solid blue for 20s then off=connected to Wi-fi • Fast blinking blue 3 times then off=wake up after hibernation
SD Card Slot	Use up to a 128GB MicroSD card to enable recording (sold separately). Only supports MicroSD card with FAT32 format.
Reset Button	Push the reset button found on the side of the doorbell or until you hear an audible tone.
USB-C Power	5VDC, Max. 1A
Charging LED Indicator	<ul style="list-style-type: none"> • Solid red: Battery is charging. • No light: Charging is Complete.
Battery Capacity	4400mAh (contains two 18650 lithium-ion batteries).
Charging/ Discharging Time	6 hours to fully charge. Can last up to 2 weeks. (Based on 10 motion triggers per day)

1 Preparing Mounting Plate

Remove the smart video doorbell (AA) from the mounting bracket (BB).

2 Charge the Smart Video Doorbell

Charge the unit fully using the supplied USB-C cord (HH) and power adapter. The charging indicator light will turn red when charging then turn off when fully charged.

3 Inserting MicroSD card

Remove the cover flap found on the side of the camera and insert SD card.

NOTE: Stores up to 10 days of continuous recording based on 128 GB MicroSD card (sold separately). Results will vary based on video quality.

1 Pre-installation

Remove the mounting bracket (BB) from the smart video doorbell (AA).

2 Position Mounting Bracket

Mark screw positions using the mounting bracket (BB) on your wall.

3 Installing Anchors

Drill 1/4 inch holes at the marked points if installing on a hard surface such as concrete or brick. Insert mounting anchors (EE) into holes. You can skip this step if installing on wood, siding or attaching with existing holes.

4 Attaching the Mounting Bracket

Use the mounting screws (DD) to attach the mounting bracket (BB) to the wall.

5 Placing the Doorbell into the Mounting Bracket

Insert the smart video doorbell (AA) into the mounting bracket (BB). Recharge as required.

 **NOTE:** Refer to Page 8 for app setup.

6 Securing the Doorbell to the Mounting Bracket

Use the supplied hex shaped key (GG) and hex shaped screws (FF) to secure the smart video doorbell (AA) to the mounting bracket (BB).

1 Supply Power

Supply power to your Wireless Chime (CC) with the USB power adapter near the Smart Doorbell. You can relocate it after pairing the device.

NOTE: The USB power adapter is not included.

2 Confirm Status Light

Wait for the Status Light to blink twice then turn off.

3 Pair with Smart Doorbell

Press and hold the volume button until the light indicator blinks quickly, then release the button and press the doorbell button on the front of the camera.

4 Complete Setup

Press it again to make sure it rings. You are now paired.

NOTE: Tapping the Ring Tone Selection button on the chime. It will play once you have stopped cycling.

Download and install the Feit Electric app

- Search for the Feit Electric app in the App Store or Google Play Store.
- Download and install the Feit Electric app on your smart device.

Feit Electric app

Turn on Bluetooth and start the Feit Electric App

- Check to be sure the doorbell is in pairing mode. The RED status light must be blinking rapidly to connect. If the light is not blinking, press and hold the Reset Button until you hear an audible tone. Use the Feit Electric app to complete the set up.
- Tap "Add" in 'Discovering devices...' You will eventually be prompted to enter your Wi-Fi network and password.
- Follow the directions in the Feit Electric app complete setup.
- You can find more pairing methods in the drop down menu on the device set-up page.

Be sure to connect to a 2.4 GHz Wi-Fi network that covers your installation location.

PROBLEM	CORRECTIVE ACTION
Doorbell will not power up	<ul style="list-style-type: none"> After completing installation, ensure the battery is fully charged or your circuit breaker is in the On position. If the doorbell is wired and does not power on, consult a certified electrician to ensure the transformer is properly installed for mechanical chimes.
Doorbell will not connect to my Wi-Fi network	<ul style="list-style-type: none"> Make sure the LED is blinking red. If the LED is not blinking red, press and hold Reset Button for 5 seconds or until you hear an audible tone, located at the side of the doorbell. Make sure the Wi-Fi network is a 2.4GHz network. Device will not connect to a 5GHz network. Test your Wi-Fi network with other devices such as your phone or computer to make sure it is operating properly. The Wi-Fi connection may be out of range during pairing. Use your phone to check the Wi-Fi signal strength, it is recommended to have at least 2 signal bars showing for proper connection. Your Wi-Fi network password is case sensitive, make sure you are entering it correctly.
The doorbell is offline	<ul style="list-style-type: none"> There could be a temporary issue with your internet connection (e.g., service disruption). Please try again in a few minutes. Make sure your Wi-Fi router is turned On. The doorbell may not have power to it, make sure the wall switch and breaker is in the On position. Make sure the doorbell is getting a good signal from your Wi-Fi router. Use your phone to check the Wi-Fi signal strength, it is recommended to have at least 2 signal bars showing for proper connection. The doorbell may have been disconnected from your Wi-Fi network. Press and hold the Reset Button until you see a blinking red LED and hear an audible tone. Follow directions in the App Setup section of the manual to re-connect the doorbell to your Wi-Fi network.
What do the blinking LEDs mean?	<ul style="list-style-type: none"> Blinking red = Pairing Mode Slow blinking blue=connection to Wi-Fi Solid blue for 20s then off=connected to Wi-Fi Fast blinking blue 3 times then off=wake up after hibernation
Live video stream is slow to load	<p>Doorbell streaming issues may be caused by any of the following:</p> <ul style="list-style-type: none"> Your phone's cellular connection, which relies on mobile coverage. Limited internet bandwidth at home. For example, other video streaming services running at the same time on your network can cause congestion slowing down the internet upload and download speeds. Wi-Fi reception may not be stable or work reliably if the doorbell's Wi-Fi signal strength is less than 2 signal bars. You may need to install a Wi-Fi repeater or extender to boost the Wi-Fi signal.
How do I reset the doorbell to reenter pairing mode?	<ul style="list-style-type: none"> Press and hold the Reset Button located at the side of the doorbell until you see a blinking red LED and hear an audible tone.
The doorbell is not recording	<ul style="list-style-type: none"> Under Advanced Settings, make sure motion Detection is set to Low, Middle or High Make sure that the MicroSD card is installed correctly. To confirm that the doorbell is recognizing the MicroSD card, go to the settings menu in the Feit Electric App. Then, go to the SD Card Settings menu and make sure the MicroSD card capacity menu shows total, used, and free space. If this does not appear, consider reformatting the MicroSD card. <p>WARNING: Reformatting MicroSD card will delete all videos stored on card. Please go through the troubleshooting section before doing so or contact our Customer Support Team.</p>
How can I check the available space on the MicroSD Card?	<ul style="list-style-type: none"> In the Settings menu under SD Card and Record Settings, you will see Used Space and Free Space. <p>Note: Doorbell only supports 128GB or less microSD cards with FAT32 format.</p>
What happens when the MicroSD card reaches full capacity?	<ul style="list-style-type: none"> Once the MicroSD Card reaches full capacity, new videos will start rewriting (deleting) over the oldest videos.
Can I use a new MicroSD card if I do not want to record over existing videos?	<ul style="list-style-type: none"> Yes, you can use a new MicroSD Card if you do not want to record over existing videos. Remove the existing MicroSD Card from the side of the doorbell and replace a new one not exceeding 128GB capacity. Once this is completed, format the new MicroSD Card by going to the SD Card and Record Settings and pressing Format SD Card, then Confirm. <p>WARNING: Reformatting MicroSD Card will delete all videos stored on card. Please go through the troubleshooting section before doing so or contact our Customer Support Team.</p>
