

# SA63-8 SMALL APERTURE® SERIES

3-WAY FULL-RANGE - IN-WALL OR CEILING - 3" CEILING OPENING

Size 17 h x 7.75 w x 7.5 d (in)  
432 h x 197 w x 191 d (mm)  
Freq Response 38Hz-22kHz±3dB  
Impedance 4 ohms  
Sensitivity 88dB 2.83V /1m  
Power req. 25-125 W (Protection Limited)  
Woofer (1) 6.5" (165 mm) Aluminum  
Mid (1) 2" (50 mm) Aluminum  
Tweeter (1) 0.75" (19 mm) Aluminum  
Finishes See Trim Kit Options

## (1) 6.5" (165 mm) High Excursion Aluminum Woofer (1) 2" (50 mm) Aluminum Midrange (1) 0.75" (19 mm) Aluminum Dome Tweeter

Unlike anything you have seen or heard, James Loudspeaker has raised industry standards once again. The James Small Aperture® in-ceiling/in-wall speakers have a very small 3" round or 3"x3" square sound aperture yet pack in a full 3-way system for deep bass and wide frequency response. A seamless edge detail keeps them looking smart and modern yet discrete. The SA63-8 was designed with a narrow 8" width for newer engineering beamed ceiling construction.

This system includes a mini powerpipe 6.5" subwoofer, 2" midrange, and a ¾" dome tweeter for wide 38Hz to 22kHz response. Having a real subwoofer also allows the system to play at loud levels. Deep bass and high SPL from such a small visible opening causes a second take! All aircraft grade aluminum construction and a modular design provide long life and easy service, while an internal protection circuit offers the utmost reliability. The SA63-8 has a small width print with an 8" depth and is best suited for in-ceiling mounting. The SA series is designed to also accept industry standard lighting trim kits to allow integration with similar styled lighting products.

Order woofer assembly, mid-range module and grille kits separately.

Square Option

Round Option

Spacer Ring
