

Urinary Drainage Bag Holder

DME Care Solutions Urinary Drainage Bag Holders offer a discreet, supportive solution for concealing urinary drainage bags — helping to promote patient dignity and confidence during care. Constructed from opaque, easy-to-clean material, these holders support hygiene while minimizing visual exposure. Durable straps allow for secure attachment to wheelchairs, geri-chairs, or bedrails, helping keep the bag reliably positioned throughout the day. Ideal for use in hospitals, long-term care facilities, and home environments.

- Discreet urological bag holder designed to support patient dignity
- Made from opaque, easy-to-clean material for optimal hygiene and convenience
- Features durable straps that secure to wheelchairs, geri-chairs, and bedrails
