

TASKI® 150 B Li-Ion

The swingo® 150 B Li-Ion is a small, battery powered upright auto scrubber designed for flexible use. Its lightweight, compact design is perfect for quick and easy cleanup in confined areas.

Features & Benefits

- The battery driven small scrubber drier is designed for flexible use and perfectly suitable for spot cleaning confined areas
- With batteries lasting approximately 20 minutes, the operator can easily replace the batteries when needed providing unlimited battery autonomy
- With the unique, low height brush unit, the TASKI swingo 150 B Li-Ion allows quick and easy access under furniture and compact dimensions for easy storage. Comfortable handles make it easy to lift and transport up stairs.
- The industry leading suction unit results in perfectly dry floors in both directions. High mechanical scrubbing action and a pressure ten times higher compared to manual cleaning ensure best cleaning results.

Applications

- This machine can be used in restaurants, kitchen areas, service stations or shops where conventional auto scrubbers are simply too heavy and manual cleaning methods do not deliver the required hygienic results
- Ideal for small, confined spaces like bathrooms

TASKI® 150 B Li-Ion

Description of Features

Integrated tank: Both the solution and recovery tank are integrated in one unique container. The removable tank can be lifted off for draining or refilling. Due to its wide opening, the tank can be cleaned quickly and easily. The tank includes a dosing aid for correct solution dosing.

Sustainable solutions: Compared to bucket cleaning, the TASKI swingo 150 B Li-Ion needs 50% less water and chemicals. The machine can be 100% recycled.

For professional use: The TASKI swingo 150 B Li-Ion is designed for reliable operation. The chassis, made of high impact ABS, is durable and strong.

Easy maintenance: The brush can be changed without tools quickly and easily to reduce downtime and service costs.

Technical data

Working width	13 in. (33.5 cm)	Machine weight empty w/o battery	26 lbs. (11.9 kg)
Squeegee width	14 in. (36 cm)	Machine weight with battery	29 lbs. (13.1 kg)
Solution tank	3 qts. (3 L)	Dimensions (L x W x H)	17 x 15 x 44 in. (43 x 38 x 112 cm)
Recovery tank	3 qts. (3 L)	Sound pressure level	74 dB(A)
Nominal consumption	520 W	Battery autonomy	20 mins.
Rated voltage	36 V	Charging time	1.5 hrs.
Brush rotation speed	1,700 rpm		

The above data is typical of normal production and should not be taken as a specification.
