

## GAIT BELTS

### ITEM 4344-4345, 4352-4354

Dynarex Gait Belts are premium-quality assistive devices designed to help provide improved stability and safety for patient transfers. Crafted from durable cotton materials, these high-quality belts provide a secure hold for added stability during movement.

- Durable belts designed to provide a secure hold during transfers
- Washable cotton materials for added convenience and optimal hygiene
- Available in a variety of colors with metal or plastic buckles
- Ideal for hospitals, long-term care, and homecare environments
